

## Conflict Presented in of Mice and Men

Of Mice and Men is set in America during the years of the Great Depression. The depression, that was caused by the Wall Street Crash 1929, left people without a job or house. People had barely enough money to afford necessities such as, food, water and clothes. The pressures of the Great Depression led to many different forms of conflict. Steinbeck shows a variety of these conflicts throughout the novella. ?? One form of conflict shown in the novella is Jealousy. The fact that Lennie is a 'huge man', results in Curley's jealousy towards Lennie.

While describing Curley, Slim says, 'He's alla time picking scraps with big guys. Kind of like he's mad at 'em because he aint a big guy'. This foreshadows the fight between Curley and Lennie in which Lennie crushes Curley's hand. The adjective 'mad' connotes the irrationality of Curley's simmering anger. Curley's covetousness towards Lennie's size represents that the world of Dust bowl America was a harsh and unforgiving place, where physical strength was especially valuable.

The adjective 'mad' has specific connotations which is why, Steinbeck chooses to use 'mad' rather than a word such as, angry to maybe suggest that Curley is slightly insane for picking fights with men considerably bigger and most likely stronger than him. 'Mad' also means that Curley is simply angry towards taller men because he envies them. This description of Curley makes the reader think of Curley as an insecure person as, the description shows that he feels inferior because of his diminutive stature. ?? Resentment is also shown in scenes of conflict.

George shows resentment towards Lennie as a consequence of Lennie losing him his job that is so significant to achieving his desires. George says, 'I got you! You can't keep a job and you lose me ever' job I get.' The repetition of the word 'you' demonstrates that George sees Lennie as the cause of the conflict and as the person who endangers his chances of achieving his dreams. The abbreviation of the word every with 'ever' implies that George is almost spitting out his words due to the aggravation that he feels.

George loses his temper with Lennie despite the fact that Lennie is George's best friend. This portrays the great importance of having a job during Different conflicts or events can bring out certain characteristics in people. The novel Of Mice and Men written by John Steinbeck has numerous conflicts that bring out the protagonist's innermost characteristic, kindheartedness. George brings out this characteristic through the conflicts between Lennie and himself. Judging him from most of his words, he does not seem like a caring person, however, it is through his actions that verify that he is.

One example of this man versus himself conflict is when George has to kill Lennie. However, the main conflict of this novel is man versus man, which basically goes on throughout the

**It's Your Time You're Wasting! Practical ways to maximise impact** Daren White, 2023-01-15 We've all said it. We've all tried to stop ourselves too. However in this case it's not directed at the little people in oversized blazers with snotty sleeves and scuffed shoes. This time it's directed at us. This book shares a range of approaches and tools that can help educators at all levels make better use of that oh so precious resource time. There is something for everyone including practical examples, opportunities for further thought and discussion, and even some great templates to adapt.

Biodiversity and Conservation: Causes and consequences of biodiversity loss 1 : development, habitat loss and invasive species Richard J. Ladle, 2009 Although biodiversity is a relatively new coinage scientists have been studying the subject it describes long before the word's first appearance in the language in the mid 1980s. In 1973 for instance the UK Systematics Association held a symposium on The Changing Flora and Fauna of Britain which concluded that not enough attention was being paid to the conservation of rarities a conclusion also reached said the symposium at a meeting of the Linnaean Society some forty years earlier. By 1980 the Global 2000 Report to the President published by the US Council on Environmental Quality starkly warned of a diminution of up to one fifth of all species by the turn of the century and there is now a growing consensus that the world faces a biodiversity crisis a potentially catastrophic global loss of genetic ecosystem and most obviously species diversity. Indeed especially since the UN Convention on Biological Diversity was promulgated in Rio de Janeiro in 1992 conserving biodiversity has become the principal focus of the global conservation movement. Indeed the study of the origins, maintenance and protection of diversity has become perhaps the most vibrant offshoot of ecology and conservation studies. It is increasingly taught and studied in universities and other research institutions around the world. Addressing the need for an authoritative reference work to make sense of this rapidly growing subject and its ever more complex and multidisciplinary corpus of scholarly literature Biodiversity and Conservation is a new title in the Routledge series Critical Concepts in the Environment Edited by Richard Ladle of Oxford University's Centre for the Environment this new Major Work brings together in five volumes the foundational and the very best cutting edge scholarship to provide a synoptic view of all the key issues and current debates.
