## OVERVIEW

adidas Real Time represents the state-of-the-art in performance monitoring. The state of the art system gives athletes and coaches powerful, real-time insights that help them optimize and maximize their physical performance and gain an edge in their competition.

Thanks to our uniquely placed cameras, sensors and input to the performance of athletes with our integrated system.

The adidas Real Time System is designed to perform tasks that are necessary and essential, including:

- Provide real-time insights during training
- Track real training impact and form
- Simplify the collection and management of data
- Add flexibility with a highly portable system

## HOW IT WORKS

adidas Real Time system uses some of the most advanced technologies along with computer vision, open source facial tracking and machine learning to provide real-time monitoring of athletes in real time.

adidas brings together GPS, heart rate, camera, heat and monitoring, and other technologies along with an understanding of athlete athletes and their training and developmental needs. Its patented algorithms process millions of data points in less than a second, resulting in:

## WHAT IT MEANS

adidas Real Time was designed to help athletes of all levels and not just those who are elite. It's a simple, intelligent feedback for coaches who need to understand how training is impacting athletes and their performance.
