**Learning Rates of Electric Vehicles** Andreas Zerfaß, 2017-11-01 Governments of many countries consider the electrification of individual passenger transport as a suitable strategy to decrease oil dependency and reduce transport related carbon dioxide CO<sub>2</sub> and air pollutant emissions However battery electric vehicles BEVs and plug in hybrid electric vehicles PHEVs have been more expensive than their conventional counterparts and suffer from relatively short electric driving ranges which still hampers the market potential of these vehicles Despite persisting shortfalls mechanisms such as technological learning and economics of scale promise to improve the techno economic performance of BEVs and PHEVs in the short to mid term Here the author seeks to obtain insight into the techno economic prospects of BEVs and PHEVs by i establishing experience curves and ii quantifying user costs and the costs of mitigating carbon dioxide and air pollutant emissions in a time series analysis The analysis captures the situation in Germany between 2010 and 2016 *The Inversion Factor* Linda Bernardi, Sanjay E. Sarma, Kenneth Traub, 2018-09-11 Why companies need to move away from a product first orientation to pursuing innovation based on customer need In the past companies found success with a product first orientation they made a thing that did a thing The Inversion Factor explains why the companies of today and tomorrow will have to abandon the product first orientation Rather than asking How do the products we make meet customer needs companies should ask How can technology help us reimagine and fill a need Zipcar for example instead of developing another vehicle for moving people from point A to point B reimaged how people interacted with vehicles Zipcar inverted the traditional car company mission The authors explain how the introduction of smart objects connected by the Internet of Things signals fundamental changes for business The IoT where real and digital coexist is powering new ways to meet human needs Companies that know this include giants like Amazon Airbnb Uber Google Tesla and Apple as well as less famous companies like Tile Visenti and Augury The Inversion Factor offers a roadmap for businesses that want to follow in their footsteps The authors chart the evolution of three IoTs the Internet of Things devices connected to the Internet the Intelligence of Things devices that host software applications and the Innovation of Things devices that become experiences Finally they offer a blueprint for businesses making the transition to inversion and interviews with leaders of major companies and game changing startups **Analyzing Financial Data and Implementing Financial Models Using R**
