celebrating New York as both a place and an idea. *Looking for the New Deal* Elna C. Green, 2007 Rife with palpable misery and often pleading with desperate urgency the hundreds of letters assembled in *Looking for the New Deal* paint a bleak and accurate portrait of the female experience among Floridians during the Great Depression. Searching for help at a time when the nation had already given Florida a wide berth, their voices joined together in the

time when desperation overwhelmed America women in Florida shared the same goal as their counterparts elsewhere in the country they wanted work In pursuit of a means to provide for their families these women doggedly often naively wrote letters asking for relief assistance from agencies charities and state and federal government officials In this volume Elna C Green gathers more than three hundred letters written by Floridians that reveal the immediacy and intensity of their plight The voices of women from all walks of life black and white rural and urban old and young historically poor and newly impoverished testify to the determination and ingenuity invoked in facing trying times BOOK JACKET **New York**

The Green New Deal and the Future of Work Craig Calhoun, Benjamin Y. Fong, 2022-08-30 Catastrophic climate change overshadows the present and the future Wrenching economic transformations have devastated workers and hollowed out communities However those fighting for jobs and those fighting for the planet have often been at odds Does the world face two separate crises environmental and economic The promise of the Green New Deal is to tackle the threat of climate change through the empowerment of working people and the strengthening of democracy In this view the crisis of nature and the crisis of work must be addressed together or they will not be addressed at all This book brings together leading experts to explore the possibilities of the Green New Deal emphasizing the future of work Together they examine transformations that are already underway and put forth bold new proposals that can provide jobs while reducing carbon consumption building a world that is sustainable both economically and ecologically Contributors also debate urgent questions What is the value of a federal jobs program or even a jobs guarantee How do we alleviate the miseries and precarity of work In key economic sectors including energy transportation housing agriculture and care work what kind of work is needed today How does the New Deal provide guidance in addressing these questions and how can a Green New Deal revive democracy Above all this book shows the Green New Deal offers hope for a better tomorrow but only if it accounts for work's past transformations and shapes its future
