International Marketing Daniel W. Baack, Eric G. Harris, Donald Baack, 2013 International Marketing presents an innovative integrated approach to the course in which marketing concepts are explored in depth within the international context. The authors identify five key factors that impact any international marketing venture: culture, language, political, legal systems, economic systems, and technological operational differences, and discuss them in relation to the core marketing concepts of markets, products, pricing, distribution, place, and promotion. Uniquely, the book provides discussions of sustainability and bottom-of-the-pyramid concepts within each chapter and is richly illustrated with examples from both multinational companies as well as smaller local concerns. Setting the path for the future direction of this course, the authors provide instructors and students with the first truly international marketing textbook.

Cases in Marketing Management Kenneth E. Clow, Donald Baack, 2011-03-28 This comprehensive collection of 38 cases selected from Ivey Publishing helps students understand the complex issues that marketing professionals deal with on a regular basis. The cases were chosen to help students apply conceptual strategic thinking to issues in marketing management as well as provide them with more practical operational ideas and methods. Cases were chosen from around the world from small and large corporations and include household names such as Twitter, Best Buy, Ruth's Chris, and Kraft Foods. The majority of the cases are very recent from 2009 or later. Each chapter begins with an introductory review of the topic area prior to the set of cases and questions are included after each case to help students to think critically about the material. *Cases in Marketing Management* is edited by Kenneth E. Clow and Donald Baack and follows the structure and goals of their textbook *Marketing Management: A Customer Oriented Approach*. It can also be used as a stand-alone text or as a supplement to any other marketing management textbook for instructors who want to more clearly connect theory and practice to actual cases.
