Empirical Studies of an Internet and Service Based Economy

Nabaz T. Khayyat,Goran M. Muhamad,2023-07-07 This book is a collection of eight studies covering several areas pertinent to the current technological and banking services situation in the Kurdistan region of Iraq The economy of the Kurdistan Region of Iraq KRI is mainly dependent on oil revenue The oil export revenue constitutes more than 90% of the government s fiscal revenue In addition to that the public sector plays an excessive role in the economy with public spending to GDP being over 70% while revenue from taxation constitutes less than 30% of total revenue As the economy is not diversified there is a large gap between demand and supply of locally produced tradeable goods leaving the KRI economy highly dependent on imports Another structural challenge of the KRI economy is its dependence on cash and a weekly financial system Although the region has witnessed extraordinary economic growth from 2008 to 2014 the growth rate decreased from 8 to 1 percent trade and investment dropped to 5 percent and the unemployment rate significantly increased to over 20% by the end of the year 2019 To maintain the progress of economic development it is necessary to upgrade the country s industrial structure in order to be able to generate more value added products which requires advancement in technological infrastructure to employ more sophisticated technologies There is not much written about Kurdistan and its economy and yet there is a comprehensive development plan and resources to be used for education research rehabilitation development and reconstruction As such this book would be of interest to researchers decision makers governmental and non governmental organizations undergraduate and graduate students and the general public with an interest in the Middle East and contemporary Kurdish issues It is a good up to date handbook for policymakers and NGOs involved in the rehabilitation reconstruction and development of Iraq
