Good Meal Prep Ideas For Beginners and Dummies Barbara Dawson, 2020-08-18 Meal prepping is making a meal or recipe then portioning it out to store for later. If you've ever had leftovers from dinner to take with you for lunch the next day, you've had a mini meal prepped. Generally, though, meal prepping refers to preparing 3-7 days worth of food at a time. Think of it like keeping lunches for the week. Instead of cooking every lunch, meal prepping can save time and reduce waste. You can use the same time to prepare breakfast, lunch, dinner, and snacks. Meal prepping involves not throwing away food that's still good. Whether you plan ahead or budget time, when you're not sure what to eat, meal prepping can help. It's good for convenience and for more than just you. With meal prepping, you can eat the same thing for a few days, saving time and money. Leftovers or getting bored with the same meal can be a problem. If you're maximizing your time and budget, meal prepping is a good idea. It's also good for your health. Eating the same thing every day can be boring, but meal prepping can help. It's also good for your health. Always begin with the right guidelines. The FDA and nutritionists recommend eating a variety of foods. In general, it's better to eat a variety of foods than to eat the same thing every day. Meal prepping can help you do that.
