It is an essential resource for any clinical practitioner looking to balance the physical and mental wellbeing of people with concurrent physical and mental health conditions. The Maudsley Prescribing Guidelines for Mental Health Conditions in Physical Illness readers will also find prescribing recommendations for mental health conditions including depression, anxiety, psychosis, and bipolar affective disorder. Detailed discussion of the consequences for mental health prescribing in physical health conditions such as cardiac disease, diabetes, chronic obstructive pulmonary disease, and many more. Treatment of complex and frequently encountered clinical scenarios such as restarting psychotropics after overdose and steroid-induced psychiatric conditions.
