AAPC stands for the **American Academy of Professional Coders**.

Founded in 1988, its flagship certification, the **Certified Professional Coder** or **CPC exam**, is one of the industry-standard credentials for medical coders to gain a valuable – *and employable* – qualification.

The CPC medical coding certification exam is a proctored, 150-question and 5.5 hour national exam. With **70%** required to pass the exam, it's important to be well-prepared both in the nature of the exam and its contents.

Most students who appear for the exam find it **hard** to clear it in the first attempt. That's where you need study guides, medical coding classes and/or certification review
