This text is the first resource to satisfy the Association for Healthcare Documentation Integrity model curriculum requirement for technology. This book will function as the core textbook for training programs and as a manual for professional transcriptionists in need of additional technology and electronic efficiency information. The book covers concepts that are foundational to all versions of Windows and then provides detailed information on Windows XP and Vista. XP specific and Vista specific pages are clearly marked for the reader's convenience. To maintain the book's currency and relevancy, significant changes in technology will be published on a companion Website. This Website will also include links to recommended resources and third party sites. Marginal icons throughout the text direct readers to online information.

Essentials of Medical Transcription Cindy Destafano, Fran M. Federman, 2000. This modular based text builds competence for entry level medical transcription through scenario drills and a building block format. It was conceived as a result of classroom experiences with student frustration. Simulations provide students the opportunity to gain confidence and competence before they enter the workplace. A free CD ROM is included with the text. It provides realistic experiences through actual transcription exercises and personalized feedback from an automated error analysis chart and production for pay summary sheet. Students experience the real world accountability of earning a paycheck. **Instructor's guide for**
