

Medicare Charting Cheat Sheet

A Medicare Charting Cheat Sheet is a quick-reference guide to help healthcare providers accurately document patient encounters, treatments, and outcomes in accordance with Medicare's documentation standards. These sheets often focus on essential information that Medicare reviewers look for, including detailed information about symptoms, medical necessity, interventions, and patient outcomes.

Here's a concise guide covers the types of skilled services and key documentation points to ensure compliance.

Physical and occupational therapy

- Document ADLs (e.g., bed mobility, transfers, ambulation) with the level of assistance required.
- Describe the resident's communication abilities and needs.
- Note any fall incidents, including vitals, pain assessment, and follow-up actions.
- Document insulin administration training and resident's blood sugar management.
- Describe symptoms from fluctuating blood sugar levels and any recent order changes.

Speech therapy

- Record resident's communication methods and support needed.
- Document any speech deficits and compensatory strategies.

Respiratory therapy

- Note respiratory sounds (e.g., wheezes, rales) and rate, rhythm, and quality.
- Document vitals (color, chest pain) and response to treatments like nebulizers or oxygen.
- Record respiratory status changes and any lab or imaging results.

Unstable diabetes (IDDM)

- Document insulin administration training and resident's blood sugar management.
- Describe symptoms from fluctuating blood sugar levels and any recent order changes.

Medication administration (I.M. or I.V.)

- Record medication purpose, administration technique, and observations of effectiveness.
- Monitor for side effects (e.g., IV site infiltration or overload signs).

Urinary tract infections (UTI) / septicemia

- Document antibiotic administration and response.
- Include vitals, input/output, symptoms (e.g., dysuria, urgency), and lab results.

Catheterization and GU complications

- Describe catheter use and sterile technique.
- Document any teaching related to self-care and clinical indicators like UTI symptoms.
