Meetings With Remarkable Trees:

Meetings With Remarkable Trees Thomas Pakenham, 2019-12-05 Thomas Pakenham's beautifully illustrated bestselling book of tree portraits. With this astonishing collection, Thomas Pakenham produced a new kind of tree book. The arrangement owes little to conventional botany. The sixty trees are grouped according to their own strong personalities: Natives, Travellers, Shrines, Fantasies, and Survivors. From the ancient native trees, many of which are huge and immeasurably old, to the exotic newcomers from Europe, the East, and North America, **MEETINGS WITH REMARKABLE TREES** captures the history and beauty of these entrancing living structures. Common to all these trees is their power to inspire awe and wonder. This is a lovingly researched book, beautifully illustrated with colour photographs, engravings, and maps, a moving testimonial to the Earth's largest and oldest living structures. *Meetings with Remarkable Trees*, 2005 **Meetings with**

Remarkable Trees ; Remarkable Trees of the World Thomas Pakenham, 2003 *Meetings with Remarkable Trees ; Remarkable Trees of the World* Thomas Pakenham, 2003 **Remarkable Trees of the World** Thomas Pakenham, 2003

Profiles significant tree varieties on four continents, including Japanese midgets, India stranglers, and American redwoods, in a volume that also discusses the dangers posed to many trees. **In Search of Remarkable Trees** Thomas

Pakenham, 2007-10-30 The famed author of *The Boer War* and *Remarkable Trees of the World* presents some of the oldest, most unusual, and most impressive trees on the planet as he travels across Southern Africa and Madagascar. Thomas Pakenham, no stranger to Africa with his award-winning books *The Boer War* and *The Scramble for Africa*, nor to remarkable trees with his bestselling *Remarkable Trees of the World*, combines his two interests on safari in Southern Africa. His particular quarry is the rare, the giant, the very old, the extraordinary, or the simply beautiful: from a giant baobab and a prickly quiver tree in Namibia to a glorious jacaranda in South Africa and sesame bushes attacked by elephants in Botswana. He uncovers trees written about by the great explorers of the past or associated with magic, folklore, or ritual. The narrative accompanying each image interweaves the stories of Pakenham's own journey at some moments scaling trees to escape from enraged wildlife, while at others standing in awe before a particular tree connected by some primitive, atavistic bond with those of the trees themselves, imbuing each with personality and presence. The result is a beautifully crafted blend of botany and social history, the product of a brilliant photographer, an original mind, and a superlative writer. **Like a Tree** Jean

Shinoda Bolen, 2011-04-01 A Powerful and Poetic Call to Ecological Feminist Activism. This masterful work by internationally known author and speaker Jean Shinoda Bolen provides an insightful look into the fusion of ecological issues and global gender politics. Of trees and women. This book on the importance of trees grew out of Bolen's experience mourning the loss of a Monterey pine that was cut down in her neighborhood. That combined with her practice of walking among tall trees led to her deep connection with trees and an understanding of their many complexities. From their anatomy and physiology to trees as archetypal and sacred symbols, Bolen expertly explores the dynamics of ecological activism, spiritual activism, and sacred

feminism And she invites us to join the movement to save trees Stories of those making a difference While there is still much work to be done to address environmental problems there are many stories of individuals and organizations rising up to make a change and help save our planet The words and stories that Bolen weaves throughout this book are both inspirational and down to earth calling us to realize what is happening to not only our trees but our people By writing about both the work of organizations like Greenpeace and the UN Commission on the Status of Women Bolen highlights her passions and shares her unique vision for the world In *Like a Tree* learn more about The dynamic nature of trees from their anatomy to their role as an archetypal symbol Pressing social issues such as deforestation global warming and overpopulation What it means to be a tree person If you enjoyed books like *The Hidden Life of Trees* *Wise Trees Around the World* in 80 *Trees* or *Braiding Sweetgrass* then you ll love *Like a Tree* How Trees Women and Tree People Can Save the Planet *The Company of Trees* Thomas Pakenham,2015-09-10 The master Puts all other modern tree writers in the shade John Lewis Stempel author of *Meadowland* Thomas Pakenham is an indefatigable champion of trees In *The Company of Trees* he recounts his personal quest to establish a large arboretum on the family estate Tullynally in Ireland his forays to other tree filled parks and plantations his often hazardous seed hunting expeditions and his efforts to preserve magnificent old trees and historic woodlands Whether writing about the terrible storms breaking the backs of hundred year old trees or a fire in the peat bog on Tullynally which threatens to spread to the main commercial spruce woods his fear of climate change and disease or the sturdy young saplings giving him hope for the future his book is never less than enthralling **In Search of Remarkable Trees** Thomas Pakenham,2007 Thomas Pakenham in search of the oldest most unusual and most impressive trees of Southern Africa *Remarkable Trees of the World* ,2002 A landmark volume celebrating the most remarkable trees on the planet Pakenham takes readers on a voyage across four continents and introduces them to arbors of all shapes and sizes dwarfs giants aliens and monuments Full color photos **Geographies of Us** Sondra Fraleigh,Shannon Rose Riley,2024-03-13 *Geographies of Us* Ecosomatic Essays and Practice Pages is the first edited collection in the field of ecosomatics With a combination of essays and practice pages that provide a variety of scholarly creative and experience based approaches for readers the book brings together both established and emergent scholars and artists from many diverse backgrounds and covers work rooted in a dozen countries The essays engage an array of crucial methodologies and critical theoretical perspectives including practice based research in the arts especially in performance and dance studies critical theory ecocriticism Indigenous knowledges material feminist critique quantum field theory and new phenomenologies Practice pages are shorter chapters that provide readers a chance to engage creatively with the ideas presented across the collection This book offers a multidisciplinary perspective that brings together work in performance as research phenomenology and dance movement this is one of its significant contributions to the area of ecosomatics The book will be of interest to anyone curious about matters of embodiment ecology and the environment especially artists and students of
