New Labour In Power Precedents And Prospects:

New Labour in Power Brian Brivati, Tim Bale, 1997 Addressing core themes such as Europe the economy welfare education and the constitution this volume assesses Labour's election victory both in its historical context and through the words of contemporary media commentators

The Political Economy of New Labour Colin Hay, 1999 The Political Economy of New Labour provides one of the first systematic assessments and accessible evaluations of the modernization of the British Labour Party in the light of its landslide electoral victory in 1997 It also represents a rare attempt to locate Labour's modernization in terms of the distinctive political economy of contemporary British capitalism and the impact of globalization the evolution and transformation of the British State in the post war period the legacy of Thatcherism and the specifics of electoral strategy and competition in contemporary Britain In doing so it provides a genuinely interdisciplinary account and analysis of Labour's modernization and the strategic terrain within which this has been played out as well as an assessment of the strategic alternatives available to a New Labour administration in an era of globalization and an evaluation of the prospects for a decisive break with the Thatcher Major legacy

Territory, Identity and Spatial Planning Mark Tewdwr-Jones, Philip Allmendinger, 2006-09-27 This book provides a multi disciplinary study of territory identity and space in a devolved UK through the lens of spatial planning It draws together leading internationally renowned researchers from a variety of disciplines to address the implications of devolution upon spatial planning and the rescaling of UK politics Each contributor offers a different perspective on the core issues in planning today in the context of New Labour's regional project particularly the government's concern with business competitiveness and key themes are illustrated with important case studies throughout

Fiscal Policy Convergence from Reagan to Blair Arthur T. Denzau, Ravi K. New Labour's Foreign Policy Richard Little, Mark Wickham-Jones, 2000 The essays collected in this book address the ethical character of the New Labour administration's measures while assessing whether Labour has redirected the conduct of foreign policy away from the path established by the Conservatives Together they give the first detailed account of the foreign affairs stance adopted by New Labour in office

The Politics of Party Policy A. Gauja, 2015-12-11 Examining the complexities and tensions in relations between party members and parliamentarians through an in depth analysis of the processes that shape the development of party policy in the UK Australia and New Zealand this book Presents new evidence on the challenges facing parties in encouraging citizen participation in policy development

New Labour, New Thinking Maurice Mullard, 2000 The focus of this outstanding book is the politics

economics and social policy of the UK Labour Government of Tony Blair There is always a problem in the attempt to make sense of something that is still taking shape However there is equally a problem of writing with hindsight While hindsight provides the opportunity for perfect vision of the past the art of policy making is about the here and now While the experience and impact of the Blair Government can only be described as unfinished business and work in progress there are already a series of pillars which are giving shape to the Government Although the shape of policy is not yet clear some analysis can be made of the emerging structure This book elucidates the Labour Government's underlying pillars and clarifies the developing structures
