*The North American West in the Twenty-First Century* Brenden W. Rensink,2022-11 In 1893 Frederick Jackson Turner famously argued that the generational process of meeting and conquering the supposedly uncivilized western frontier is what forged American identity In the late twentieth century new western historians dissected the mythologized western histories that Turner and others had long used to embody American triumph and progress While Turner s frontier is no more the West continues to present America with challenging processes to wrestle navigate and overcome The North American West in the

Twenty First Century edited by Brenden W Rensink takes stories of the late twentieth century modern West and carefully pulls them toward the present explicitly tracing continuity with or unexpected divergence from trajectories established in the 1980s and 1990s Considering a broad range of topics including environment Indigenous peoples geography migration and politics these essays straddle multiple modern frontiers not least of which is the temporal frontier between our unsettled past and uncertain future These forays into the twenty first century West will inspire more scholars to pull histories to the present and by doing so reinsert scholarly findings into contemporary public awareness      **Uncertain Climes** Joseph

Giacomelli,2023-04-05 Drawing on the writings of scientists foresters surveyors and settlers Joseph Giacomelli shows that climate uncertainty infused Gilded Age thinking about economic growth and national development He details a multivalent discourse on climate that infused both practical concerns and overarching political themes not least Manifest Destiny Giacomelli makes it clear that uncertainty drew together concerns about human induced climate change and cultural worries about the sustainability of capitalist expansionism A rising belief in scientific positivism was matched by a growing awareness of the illusory nature of scientific certainty faith in society's power to improve landscapes tussled with persistent fears of environmental catastrophe      **Audiovisual Alterity** Michael L. Austin,2024-11-04 This new book fully expands our

understanding of how historically marginalized groups are represented in music videos Author Michael Austin explores the ways in which Asian and Pacific Islanders Indigenous communities the LGBTQIA community drag performers religious minorities and the incarcerated are represented The book also covers several contemporary controversies involving music videos especially cultural appropriation Importantly this book also explores the ways in which marginalized communities use music videos as a way to find their own voice and represent themselves      **Atlas of Iowa** Robert C Shepard,Patrick

Bitterman,J Clark Archer,Fred M Shelley,2024-08-30 The Atlas of Iowa examines the state's geography demographics agriculture and political cultural patterns Drawing upon archival materials and synthesizing little known secondary sources the authors of this thematic atlas have pulled together a comprehensive map series that depicts Iowa's complex unique story of challenging human environmental interaction      *Reimagining the Academic Library* David W. Lewis,2016-05-04 Academic

libraries are in the midst of significant disruption Academic librarians and university administrators know they need to change but are not sure how Bits and pieces of what needs to happen are clear but the whole picture is hard to grasp *Reimagining the Academic Library* paints a simple straightforward picture of the changes affecting academic libraries and what academic librarians need to do to respond to the changes would help to guide future library practice The aim is to explain where academic libraries need to go and how to get there in a book that can be read in a weekend David Lewis provides a readable survey of the current state of academic library practice and proposes where academic libraries need to go in the future to provide value to their campuses His primary focus is on collections as this is the area with the greatest opportunity for change and is the driver of most library cost Lewis provides an accessible framework for thinking about how
