

# NEW RIGHT *THE NEW* OLD RIGHT

Greg Johnson  
Foreword by Kevin MacDonald

# New Right Vs Old Right

**Tom Brass**

## **New Right Vs Old Right:**

*New Right Versus Old Right and Other Essays* Greg Johnson, 2014-02 Dr Greg Johnson is the editor of Counter Currents Publishing and its journal North American New Right [www.counter-currents.com](http://www.counter-currents.com) which draw upon the ideas of the European New Right to promote a new approach to White Nationalist politics in North America *New Right vs Old Right* collects 32 essays in which Dr Johnson sets out his vision of White Nationalist metapolitics and distinguishes it from Fascism and National Socialism the Old Right as well as conservatism and classical liberalism the Phony Right Dr Johnson rejects the Old Right's party politics totalitarianism imperialism and genocide in favor of the metapolitical project of constructing a hegemonic White Nationalist consciousness within a pluralistic society He argues that White Nationalists are too dependent on the model of hierarchical organizations and need also to work on creating resilient lateral networks He offers New Rightist answers to a number of disputed questions within the White Nationalist community including white culpability for our decline Hitler and National Socialism the Jewish question the holocaust the role of women Christianity vs paganism and the relationships of populism elitism and democracy He sets out some basic principles for creating a growing resilient networked movement Finally he criticizes distractions and dead ends like mainstreaming conservatism premature populism and political violence Engagingly written and constructively critical Greg Johnson's *New Right vs Old Right* is an important contribution to the emerging North American New Right Praise for *New Right vs Old Right* Greg Johnson's basic point is that we must work to create a metapolitics of explicit white identity that is a movement that will develop the intellectual and cultural foundations for effective White Nationalist politics in North America so that we can ultimately create a white homeland or homelands on this continent Greg is one of the reasons why I think this is a feasible project Greg received his PhD in philosophy and it shows His forte is the well developed argument presented in a lucid easily understood style Nobody can complain about this book being filled with turgid prose And I can't find any major disagreements Kevin MacDonald from the Foreword In *New Right vs Old Right* Greg Johnson lays out his vision for a pro white movement more focused on ideas education and communication than on politics or thuggery True to this vision his writing is extremely accessible Throughout this collection Johnson breaks down complex philosophical concepts and challenging ideas into tight efficient sentences and effective explanations Johnson doesn't drone on trying to sound clever Like an enthusiastic professor he truly wants his readers to understand why he believes it is morally right for whites and all peoples to determine their own collective destinies Jack Donovan author of *The Way of Men* Dr Greg Johnson's *New Right vs Old Right* delineates the differences between two Rights without repudiating the common philosophical origins of both in opposing egalitarianism and other passe ideologies that continue to dominate much of the world The primary value of this collection of essays however is that Dr Johnson asks the perennial question from our side what is truth In doing so he lays the foundations for a morality of the New Right This book is therefore unique in the English speaking Rightist milieu that was for much of the post 1945 era poorly

served in comparison to its counterparts in Europe As such Dr Johnson s book will be of relevance to many beyond the North American New Right of which he is a founding father Kerry Bolton author of Artists of the Right **Appeal to Reason** Craig Aaron,2018-02-27 In These Times the national biweekly magazine of news and opinion has provided groundbreaking coverage of the labor movement the environment feminism grassroots politics minority communities and the media for twenty five years Filled with new writing commissioned specially for this anniversary volume images and text highlights of the last quarter century in the magazine Appeal to Reason The First 25 Years of In These Times showcases contributors to the magazine like Noam Chomsky David Brower and Alice Walker to name just a few But it also asks an important question Where do we go from here For answers Appeal to Reason turns to more than twenty leading progressive writers including Barbara Ehrenreich Juan Gonzalez Salim Muwakkil and Robert W McChesney who take a fresh look at the lessons of the past and suggest directions for the future Exploring issues ranging from globalization and criminal justice to the environment and culture Appeal to Reason lays a political and intellectual foundation for the debates discussions and movements of the next twenty five years Peasants, Populism, and Postmodernism Tom Brass,2000 Tracing the way in which the agrarian myth has emerged and re emerged over the past century in ideology shared by populism postmodernism and the political right the argument in this book is that at the centre of this discourse about the cultural identity of otherness difference lies the concept of and innate peasant ness In a variety of contextually specific discursive forms the old populism of the 1890s and the nationalism and fascism in Europe America and Asia during the 1920s and 1930s were all informed by the agrarian myth The postmodern new populism and the new right both of which emerged after the 1960s and consolidated during the 1990s are also structured discursively by the agrarian myth and with it the ideological reaffirmation of peasant essentialism

**Where Have All the Fascists Gone?** Tamir Bar-On,2007-01-01 The Intellectual European New Right ENR also known as the nouvelle droite is a cultural school of thought with origins in the revolutionary Right and neo fascist milieux This study traces the cultural philosophical political and historical trajectories of the French nouvelle droite in particular and the ENR in general **Blood and Faith** Damon T. Berry,2017-09-26 Beginning with Ronald Reagan s 1980 presidential campaign the term religious right entered the popular lexicon coming to signify a politically and socially conservative form of Christianity that informs American conservatism to this day Less well known are other ideologies that have influenced the far right since well before 1980 including Odinism Creativity and racialized atheism The rising popularity of these extreme groups and their philosophical grounding in racial politics and religious bigotry has caused a shift away from and often hostility toward even racist forms of Christianity among American white nationalists In Blood and Faith Berry deftly explores the causes of this shift rooted largely in response to racialized anxieties that are by no means exclusive to extremists in America Focusing on the challenges these tensions pose for contemporary white nationalists seeking access to mainstream conservative politics Berry also considers the recent rise of the so called alt right and the unifying issues of anti multiculturalism and anti

immigration around which moderate and fringe groups have rallied Blood and Faith is a provocative investigation of the complex evolving role of white nationalism and an urgent reminder of the outsized influence of religion in American political life
