Hello and welcome to the realm of Business Training and Development. The information for this book came from a variety of different writers and researchers on the subject as well as from our own training and teaching experiences. The book is intended to aid managers and staff in improving performance, achieving success and enhancing job happiness. As we all know, greater performance in business is especially linked to the person's work abilities and communication is not independent of this. As everyone is aware, greater performance in business explicitly refers to the person's work abilities and communication is not independent of this. In terms of development, better performance pertains to wider abilities that might improve both a person's personal and professional performance. In addition to preparing an employee or manager for a position with more responsibility, understanding communication helps people define goals, clarify their beliefs, advance in their careers, use learning management techniques and perform better at work while still enjoying their personal lives and relationships. All businesses and organizations as well as employees and managers at all levels always need to enhance their communication skills. Professionals in the business world, educators, engineers, physicians, accountants and construction workers. Although adept in their fields, professionals such as secretaries, managers and lawyers sometimes struggle to communicate with coworkers, superiors, employees, customers, clients and partners.
