*The Newbies Guide to the Cannabis Industry* Chris Conrad, Jeremy Daw, 2015-10-27      **Cryptocurrency for Beginners** Stephen Satoshi, 2018-07-31

If you're thinking of buying cryptocurrency in the future consider this. If only I'd bought back then. Sound familiar? It probably does. Because when it comes to cryptocurrency there are so many if only or the one that got away stories. 7 years ago you could've bought 1 Bitcoin for just 10 cents. That same Bitcoin is worth over 8000 today. 100 dollars invested in 2010 would be worth over 8 million dollars today. But now you have an opportunity that's far from typical. It's an opportunity to cryptocurrencies while the prices are down 60% from the start of the year. You're probably thinking if prices are down so much why on Earth would I buy? The answer is this dip is only temporary. Because it gives institutions like investment banks a chance to load up their own holdings for less. Banks like JP Morgan who just last year were adamantly against cryptocurrency but now are offering it as an investment option. And the Chicago Board of Exchange who just filed an application to provide the world's first Bitcoin ETF. Which is why earlier this month Bitcoin rose 28% in just 4 days. rising valuations are racing to both meet innovative whole-tailored blue-chip farm partnerships and bring marijuana-related business to the ground. As the legal cannabis industry continues to develop, the legalization of medical marijuana use grows, and the number of investors have taken note. Public and private combined raised nearly 13.8 million in 2018, more than 3.5 billion in 2017, according to data from Verdant Capital Advisors, led by Fortune 500 companies like Canopy Growth, CGC, Tilray Inc., TLRY, and Cron Group Inc. CRON reported last quarter compared them to the West, with interest in pot stocks rising more than with the intimate knowledge of the business and making investments in the space. As with any new industry, though, learning about the nuances of the marijuana landscape is overwhelming. Successful marijuana production requires knowledge of botany and biology and breeding of the plants from these fields. Producers breed marijuana plants when they select the best breeding in a way as to transfer one or more desired traits from a parent and offspring. So, all this is typically not a labor-intensive process with a lot of time and effort to strengthen the resulting product in the stores that sell marijuana products. Dispensaries sell more marijuana than just marijuana itself, including paraphernalia and clothing, etc. Because legal cannabis is regulated differently depending on the U.S. state or Canadian province, the specific requirements and setup of a dispensary will depend heavily on where the dispensary is located.
