Next Generation Management Development Robert D. Cecil, William J. Rothwell, 2007 This innovative comprehensive and fully integrated management development program provides a vehicle for enabling managers and leaders to participate more effectively in their organization's OD processes. The concepts, models, tools, and other materials have been used successfully to train managers, leaders, and MD OD personnel in organizations such as IBM, AT T, Kraft, Baxter, Labs, Sears, Caterpiller, and the U S Navy, Army, and Air Force. The accompanying CD ROM contains customizable tools for OD consultants and facilitators as well as additional chapter material.

Human Resource Transformation William J. Rothwell, Robert K. Prescott, Maria W. Taylor, 2008 From this experienced author team whose previous book Strategic Human Resource Leader first introduced the concept of HR transformation comes this detailed exploration of today's workforce and workplace trends that drive the need for HR to radically rethink, reinvent, and reposition its role within the organization. With data culled from the authors' first ever 20 year longitudinal study of how general managers view HR's focus and performance, Human Resource Transformation explores the new role of HR leadership especially when facing the challenges of outsourcing and presents an action plan for aligning and implementing a new agenda for connecting the HR function to the success of the organization.

Kazanas, 2011-01-06 The fourth edition of Mastering the Instructional Design Process has been completely revised and updated and is based on the instructional design competencies of the International Board of Standards of Performance and Instruction (IBSTPI). This comprehensive resource covers the full range of topics for understanding and mastering the instructional design process including detecting and solving human performance problems, analyzing needs, learners, work settings, and work, establishing performance objectives and performance measurements, delivering the instruction effectively and managing instructional design projects successfully.
