The Wiley Handbook of Cognition and Assessment Andre A. Rupp, Jacqueline P. Leighton, 2016-11-14 This state-of-the-art resource brings together the most innovative scholars and thinkers in the field of testing to capture the changing conceptual, methodological, and applied landscape of cognitively grounded educational assessments. Offers a methodologically rigorous review of cognitive and learning sciences models for testing purposes, as well as the latest statistical and technological know-how for designing scoring and interpreting results. Written by an international team of contributors at the cutting edge of cognitive psychology and educational measurement under the editorship of a research director at the Educational Testing Service and an esteemed professor of educational psychology at the University of Alberta, as well as supported by an expert advisory board. Covers conceptual frameworks, modern methodologies, and applied topics in a style and at a level of technical detail that will appeal to a wide range of readers from both applied and scientific backgrounds. Considers emerging topics in cognitively grounded assessment, including applications of emerging socio-cognitive models, cognitive models for human and automated scoring, and various innovative virtual performance assessments.

Handbook of Test Development Suzanne Lane, Mark R. Raymond, Thomas M. Haladyna, 2015-10-08 The second edition of the Handbook of Test Development provides graduate students and professionals with an up-to-date, research-oriented guide to the latest developments in the field. Including thirty-two chapters by well-known scholars and practitioners, it is divided into five sections covering the foundations of test development, content definition, item development, test design and form assembly, and the processes of test administration, documentation, and evaluation. Keenly aware of developments in the field since the publication of the first edition, including changes in technology, the evolution of psychometric theory, and the increased demands for effective tests via educational policy, the editors of this edition include new chapters on assessing noncognitive skills, measuring growth and learning progressions, automated item generation, and test assembly and computerized scoring of constructed responses. The volume also includes expanded coverage of performance testing, validity, fairness, and numerous other topics. Edited by Suzanne Lane, Mark R. Raymond, and Thomas M. Haladyna. The Handbook of Test Development, 2nd edition, is based on the revised Standards for Educational and Psychological Testing and is appropriate for graduate courses and seminars that deal with test
