*European Yearbook of Constitutional Law 2020* Ernst Hirsch Ballin, Gerhard van der Schyff, Maarten Stremler, Maartje De Visser, 2021-03-27 The European Yearbook of Constitutional Law EYCL is an annual publication devoted to the study of constitutional law. It aims to provide a forum for in-depth analysis and discussion of new developments in the field both in Europe and beyond. This second volume examines the constitutional positioning of cities across space and time. Unrelenting urbanisation means that most people are or soon will be living in cities and that city administrations become in many respects their quintessential governing units. Cities are places where State power is operationalised and concretised where laws and government policies transform from parchment objectives to practical realities. In a similar vein cities are also places for the realisation of the constitutional rights and liberties enjoyed by individuals. The book is organised around three sets of relations that await further unpacking in theory as well as practice: that between cities and other institutions in the national constitutional architecture; that between cities and their inhabitants; and that between cities and international organisations. The contributions to this book show the marked diversity in the role and powers available to cities in Europe and beyond and identify principles and approaches to help stipulate new ways of thinking about the legal role and relevance of cities going forward. Ernst Hirsch Ballin is distinguished university professor at Tilburg University and vice dean for research of Tilburg Law School. Gerhard van der Schyff is associate professor at Tilburg Law School Department of Public Law and Governance. Maarten Stremler is lecturer at Maastricht University Faculty of Law Department of Public Law. Maartje De Visser is associate professor at SMU School of Law Singapore.

*Constitutionalism and the Rule of Law* Maurice Adams, Anne Meuwese, Ernst Hirsch Ballin, 2017-02-02 An exploration of how rule of law and constitutional ideals inform and are informed by political realities.

*Polycentric Governance and the Good Society* Pablo Paniagua, David Thunder, 2024-08-22 Polycentric Governance and the Good Society A Normative and Philosophical Investigation offers an examination of the idea of polycentric governance as one of the pillars of a flourishing human society. Rather than following the conventional path of suppressing complexity and diversity for the sake of reaching agreement on justice and political stability, David Thunder and Pablo Paniagua see complexity and diversity as assets that should be leveraged to make the Open Society a more prosperous, resilient and flourishing place to live. Polycentric Governance and the Good Society provides valuable food for thought for academics and students looking for a probing cross-disciplinary discussion of the ethos and institutions of liberal democracy under conditions of social pluralism. Although the volume includes diverse disciplinary lenses such as public choice theory, MacIntyrean social theory and constitutional law, the driving concern is to exhibit the potential advantages of polycentric approaches to governance and social coordination for constructing a feasible and morally attractive social order. This is the first extended academic work to explore in-depth the advantages not only from an economic and organizational standpoint but also from a broader ethical, sociological and anthropological perspective of polycentric

governance arrangements      **The Constitution of Belgium** P. Popelier,Koen Lemmens,2020 The Belgian Constitution once described as a model of consensus democracy has now become an enigma in comparative federalism On the one hand it demonstrates features which suggest institutional instability as well as elements that enhance the probability of secession On the other hand Belgium continues to exist as a federal system based upon linguistic bipolarity This linguistic bipolarity dominates Belgian politics and has shaped the design of Belgium s institutions as well as the Constitution s fundamental organising principles concepts of federalism democracy separation of powers constitutionalism and the rule of law In this book the institutional structure and the principles of governing the Belgian constitutional system are explained in the light of its historical demographic and political context Linguistic bipolarity and its historical evolution explain the establishment of the Belgian State structure as a dual federalism with exclusive powers instruments for consensus making and obstruction and elements of confederal decision making It also explains the evolution in the concept of principles of democracy and the rule of law Besides describing the devolutionary process the book also incorporates two other elements that have shaped the Belgian constitutional landscape fundamental rights and Europeanisation Unedited summary from book cover      Good Administration and the Council of Europe Ulrich Stelkens,Agnè Andrijauskaitè,2020 This book seeks to find an answer to the question of how to rule a state well by drawing on a range of organizational procedural and substantive standards of administrative conduct developed within the framework of the Council of Europe CoE as an organization of a broader scope than the European Union

*ECSA Review* ,2001      **The Transformation of EU Treaty Making** Dermot Hodson,Imelda Maher,2018-08-09 Treaty making is a site of struggle between those who claim the authority to speak and act on the international stage The European Union EU is an important test case in this respect because the manner in which the Union and its member states make treaties has shifted significantly over the last six decades Drawing insights from EU law comparative constitutionalism and international relations this book shows how and why parliaments the people and courts have entered a domain once dominated by governments It presents qualitative and quantitative evidence on the importance of public trust and political tactics in explaining this transformation of EU treaty making and challenges the idea that EU treaties are too rigid Analysing legal developments in the EU and each of its member states this will be essential reading for those who wish to understand the EU s controversial experiment in treaty making and its wider significance

**Federalism in the European Union** Elke Cloots,Geert De Baere,Stefan Sottiaux,2012-09-03 This edited volume aims to reveal the Janus faced character of federalism in the European Union Federalism appears in two main forms in the EU On the one hand numerous formerly unitary Member States have embarked on a path towards a quasi federal governance structure On the other hand the EU itself is sometimes qualified as a federal system Significantly the concept of federalism has a very different even opposite connotation in both contexts When associated with Member State reform federalism is regarded as a technique for accommodating autonomy claims of sub state nations By contrast when federalism is used as a label for the EU

itself it is conceived as a far reaching way of integrating the nations of Europe This dual appearance of federalism in the EU context is central to the structure of the book The first collection of essays addresses the question whether the EU may be described as a federal system and whether it can learn from existing federations In the second set of contributions the attention shifts to domestic federalisation processes more particularly to the impact of these processes on EU law and vice versa **Spain and European Union constitution-building** Raj S. Chari,Egea de Haro,Kenneth Benoit,Michael Laver,2004 *Measure for Measure* Ian Forbes,Geoffrey Mead,1992 *Minorities and Human Rights Law* Patrick Thornberry,1987 Tax Management Portfolios ,2005 **World Focus** ,2005 **West Africa** ,1982-09 **Syllabus** ,1981 *International Affairs* ,1961 *PAIS International in Print* Catherine Korvin,2003-05 This book contains bibliographic references with abstracts and subject headings to public and social policy literature and to world politics published in print and electronic formats international focus **Resources in Education** ,1982 Studia diplomatica ,2006 **Judicial Review Handbook** Michael Fordham,2001-11 In this third edition the author offers a compendium of the source material structured around 63 unique legal principles supported by an extensive selection of reported case quotations It also includes essential procedural rules forms and guidance including the new pre action protocol
