Discourses of Danger & Dread Frontiers Graeme Cheeseman, Robert H. Bruce, 1996 The contributors to this volume offer a comprehensive theoretical critique of the closed and introspective approaches which both define and determine contemporary Australian defence and security policy They critically assess the basic assumptions of mainstream security thinking challenging existing orthodoxies and means of framing reality The authors call on policy makers academics and others working on defence and security issues to think more critically and theoretically to begin to ask some of the difficult

questions that are being raised in other disciplines and finally to recognise and accept the contested and problematic nature of many of the concepts that they advance as if they were self evident Discourses of Danger is a timely and provocative book which complements and advances the work of the Secure Australia Project and other critics of the Australian security mainstream Back cover
