**Sounds So Good to Me** Barry Lee Pearson, 2015-12-17 The roots of much American music lie in the intensely personal art form of the blues What bluesmen from W C Handy to B B King have told us about their lives has shaped America's perception of the blues These life stories provide central insights into blues music and stand as a fascinating form of narrative in their own right Barry Lee Pearson has conducted dozens of field interviews and collected over a hundred published autobiographies to present this collective portrait of bluesmen's careers as they themselves tell them their musical learning communities work pleasures travels triumphs and crises

**Do You Remember House?** Micah E. Salkind, 2019 Today no matter where you are in the world you can turn on a radio and hear the echoes and influences of Chicago house music Do You Remember House tells a comprehensive story of the emergence and contemporary memorialization of house in Chicago tracing the development of Chicago house music culture from its beginnings in the late 70s to the present Based on expansive research in archives and his extensive conversations with the makers of house in Chicago's parks clubs museums and dance studios author Micah Salkind argues that the remediation and adaptation of house music by crossover communities in its first decade shaped the ways that Chicago producers DJs dancers and promoters today re remember and mobilize the genre as an archive of collectivity and congregation The book's engagement with musical kinesthetic and visual aspects of house music culture builds from a tradition of queer of color critique As such Do You Remember House considers house music's liberatory potential in terms of its genre defiant repertoire in motion Ultimately the book argues that even as house music culture has been appropriated and exploited the music's porosity and flexibility have allowed it to remain what pioneering Chicago DJ Craig Cannon calls a musical Stonewall for queers and people of color in the Windy City and around the world
