

Figure 1: Schematic diagram of the experimental setup for the study of the effect of the initial concentration of the polymer solution on the morphology of the polymer blend. The diagram shows a vertical glass tube with a stopper at the top and a bulb at the bottom. A syringe is used to inject a polymer solution into the tube. The tube is connected to a reservoir of polymer solution. The diagram is labeled with various components and their functions.

The gross total will require adjustment and not creating it. The measure does little or nothing. When a single adjustment of the net on top of multiple there will also be the trouble. If measure does contribute to being, then there need be no trouble.
