

The image features a central, unrolled scroll with a textured, brownish-gold surface, resembling parchment or aged paper. The scroll is held open by two dark brown, cylindrical wooden rollers on the left and right sides. The edges of the scroll are irregular and frayed. The background is a soft-focus painting of a natural scene. The upper portion shows a sky with blended green and yellow hues, suggesting a bright, hazy day. Below the sky, there are silhouettes and soft colors of trees and foliage in shades of green and blue, creating a sense of depth and a peaceful atmosphere. The overall style is artistic and evocative, typical of a title card for a documentary or educational video.

the common features that are found in modern and ancient languages He treats the diversification of language not only by isolating root words in different languages but also by dealing with sound systems with forms of composition and with sentence structure In so doing he demonstrates the evidence for the expansion of all language from a single central area Swadesh supports his hypothesis by exhibits that conveniently present the evidence in tabular form Further clarity is provided by the use of a suggestive practical phonetic system intelligible to the student as well as to the professional The book also contains an Appendix in which the distinguished ethnographer of language Dell Hymes gives a valuable account of the prewar linguistic tradition within which Swadesh did some of his most important work The History and Origin of Language A.S.
