Angels of Our Nature      **The Christian Structure of Politics** William A. McCormick, 2022 The Christian Structure of Politics the first full length monograph on Thomas Aquinas's De Regno in decades offers an authoritative interpretation of De Regno as a contribution to our understanding of Aquinas's politics particularly on the relationship between Church and State William McCormick argues that Aquinas takes up a via media between Augustine and Aristotle in De Regno invoking human nature to ground politics as rational but also Christian principles to limit politics because of both sin and the supernatural end of man beyond politics Where others have seen disjointed sections on the best regime tyranny and the reward of the king McCormick identifies a dialogical structure to the text one not unlike the disputed question format whereby Aquinas both tempers expectations for the best government and offers a spiritual diagnosis of tyranny culminating in a sharp critique of civil religion and political theology McCormick draws upon historical research on Aquinas context especially that of Anthony Black Cary Nederman and Francis Oakley from which he develops three themes the medieval preponderance of kingship and royal ideology the relationship between Church and State and the intersection of Latin Christianity and Greco Roman antiquity While age old concerns recent research in these areas has allowed us to move beyond simplistic platitudes For scholars of political theory and the history of political thought De Regno will prove fascinating for the interplay of Aristotelian and Augustinian elements undercutting the conventional wisdom that Aquinas was simply an Aristotelian De Regno also includes an extended treatment of civil religion one of Aquinas most historically oriented discussions of politics      **God and Man in the Law** Robert Lowry Clinton, 1997 In a wide ranging study based on legal history political theory and philosophical ideas going all the way back to Plato and Roman law Robert Clinton challenges current faith in an activist judiciary Claiming that a human centered Constitution leads to government by reductive moral theory and illegitimate judicial review he advocates a return to traditional jurisprudence and a God centered Constitution grounded in English common law and its precedents      **Classics in Political Philosophy** Jene M. Porter, 2000 In Millions Like Us Virginia Nicholson tells the story of the women's Second World War through a host of individual women's experiences We tend to see the Second World War as a man's war featuring Spitfire crews and brave deeds on the Normandy beaches But in conditions of Total War millions of women in the Services and on the Home Front demonstrated that they were cleverer more broad minded and altogether more complex than anyone had ever guessed Millions Like Us tells the story of how these women loved suffered laughed grieved and dared how they re made their world in peacetime And how they would never be the same again Vividly entertaining uplifting and humbling Millions Like Us deserves to be a bestseller Bel Mooney The Daily Mail Passionate fascinating profoundly sympathetic Artemis Cooper Evening Standard Virginia Nicholson was born in Newcastle upon Tyne and grew up in Yorkshire and Sussex She studied at Cambridge University and lived abroad in France and Italy then worked as a documentary researcher for BBC Television Her books include the acclaimed social history Among the Bohemians Experiments in Living 1900 1939 and Singled Out How Two Million Women Survived Without Men after the First World War

**Guide to Books in Print** ,1996      **Ethics Expertise** Lisa Rasmussen,2005-09-13 Section I examines historical philosophical understandings of expertise in order to situate the current institution of bioethics Section II focuses on philosophical analyses of the concept of expertise asking among other things how it should be understood how it can be acquired and what such expertise warrants Finally section III addresses topics in bioethics and how ethics expertise should or should not be brought to bear in these areas including expertise in the court room in the hospital room in the media and in making policy 2 A GUIDED HISTORICAL TOUR As Scott LaBarge points out Plato s dialogues can be viewed as an extended treatment of the concept of moral expertise so it is fitting to begin the volume with an examination of Socrates and Moral Expertise Given Socrates protestations the Oracle at Delphi notwithstanding that he knows nothing LaBarge observes that it would be interesting to determine both what a Socratic theory of moral expertise might be and whether Socrates qualified as such an expert Plato s model of moral expertise is what LaBarge calls demonstrable expertise which is concerned mainly with the ability to attain a goal and to explain how one did it The problem with this account is that when one tries to solve the various problems in the model for example allowing that moral expertise is not an all or nothing skill then one is immediately faced with the credentials problem As LaBarge puts it      *Truth, Knowledge, Or Just Plain Bull* Bernard M.
