The Social History of Crime and Punishment in America: A-De Wilbur R. Miller,2012-08-10 This comprehensive and authoratative four volume work surveys the history and philosophy of crime punishment and criminal justice institutions in America from colonial times to the present

On the Line Erich Krauss,Alex Pacheco,2004 The United States Border Patrol is much more than a glorified checkpoint force rounding up illegal aliens and smugglers as they make their way across our northern and southern borders In the wake of September 11 2001 the mission of the Border Patrol has been fundamentally redefined with emphasis shifting from stopping the flow of drugs and illegal immigration to the critical mission of protecting our vast borders from terrorist infiltration Agents patrol some 8 000 miles of United States borderlands in helicopters four wheel drive trucks motorcycles ATVs and snowmobiles as well as on horseback by bicycle and on foot These dedicated men and women learn to clear buildings like the most highly skilled SWAT teams and their knowledge of immigration law rivals that of many attorneys The job is lonely hard and dangerous Agents often operate in remote areas where their backup can be hours away forcing them to rely on their instincts and training to confront criminals and on many occasions to save their own lives

Rodríguez,2005-07 Since the early twentieth century technological transfers from the United States to Latin American countries have involved technologies of violence for social control As the chapters in this book illustrate these technological transfers have taken various forms including the training of Latin American military personnel in surveillance and torture and the provision of political and logistic support for campaigns of state terror The human cost for Latin America has been enormous thousands of Latin Americans have been murdered disappeared or tortured and whole communities have been terrorized into silence Organized by region the essays in this book address the topic of state sponsored terrorism in a variety of ways Most take the perspective that state directed political violence is a modern development of a regional political structure in which U S political interests weigh heavily Others acknowledge that Latin American states enthusiastically received U S support for their campaigns of terror A few see local culture and history as key factors in the implementation of state campaigns of political violence Together all the essays exemplify how technologies of terror have been transferred among various Latin American countries with particular attention to the role that the United States as a strong state has played in such transfers
