On The Roman Pontiff:

De Controversiis Tomus II St. Robert Bellarmine, 2016-04-30 In this Theological treatise St Robert Bellarmine takes on Protestant as well as Greek Orthodox objections to the Papacy in five books In the first he argues that Christ established the Primacy of Peter by means of an Ecclesiastical Monarchy which takes up subjects as diverse as What is the best form of government Why it is fitting that the Church's government should be a monarchy Exegetical Commentary on the Lord's words in Matthew 16 and John 21 along with copious Patristic testimony In Book 2 is whether Peter has successors in the Ecclesiastical Monarchy wherein Bellarmine defends the Church's position on the true history of Peter that Peter truly went to Rome that Peter was truly a Bishop there that upon his death he was succeeded by men in the Ecclesiastical monarchy as well as its proof from the Fathers then through all the refutations Bellarmine asks what would happen if the Pope were a heretic In book 3 Bellarmine shows the many contradictions and faulty reasoning used by the first Protestants in arguing that the Pope is Antichrist while also giving exposition to the authentic understanding of the passages of Scripture that speak of Antichrist After presenting the testimony of Scripture and the Fathers on the signs that must precede Antichrist Bellarmine shows how none of this agrees with the Roman Pontiff He also refutes the fable of Pope Joan In book 4 Bellarmine argues why the Pope is infallible when he defines a doctrine on faith and morals and proceeds to defend Popes whom Protestants and others argued had erred while defining faith He continues to a discussion of law and why it is not contrary to the Gospel for the Pope or a Bishop over his diocese to make laws that bind the faithful refuting the teaching of John Calvin In book 5 Bellarmine takes up the question of the Popes power in civil affairs Protestants had argued that the Pope tyrannously usurped the rights of sovereigns and that they meant to rule the world directly in civil affairs while some canonists overly attached to a more medieval view were of a similar persuasion on the positive side He then proceeds to demonstrate that the Pope's temporal power is indirect and that he can intervene for the sake of the faith when excommunicating sovereigns but not for political reasons The protestants argued that a Bishop could not be a temporal prince and Bishop at the same time which Bellarmine soundly refutes from Scripture and Tradition This first ever English translation also has many historical notes on terms persons Greek and Latin syntax and other things to aid the reader The value of the work is not merely apologetic Bellarmine's treatise also laid down insights into Catholic teaching that were foundational not only for later Theologians but even for Vatican I

"The" Lives and Times of the Roman Pontiffs

Artaud de Montor,1865 *Papal Error?* Robert Bellarmine,St Robert Bellarmine S J,2015-10-28 This little work is an excerpt from Bellarmine's larger treatise On the Roman Pontiff book 4 which follows after the assertion of what was already universally taught at that time but not completely understood nor decreed by the Church's solemn magisterium that the Pope was infallible in his teaching on faith and morals when teaching the whole Church These chapters then being 8 14 of that work follow to test and prove this claim historically wherein he posits exculpatory evidence against claims that 40 Popes had grievously erred in matters of faith Much as with the doctrine of Papal infallibility itself St Robert Bellarmine does not endeavor to show the impeccability of Popes rather that in matters of faith where the Popes are actually authoritative they did not err Some matters treated here are the objection of certain Protestants while others are even of Catholics who are confused on the decrees or behavior of certain Popes These chapters were used as a blueprint at Vatican I by the fathers of that Council to further scrutinize these cases and be sure of the limits and nature of papal authority Bellarmine thus lays out

four basic propositions Two of these Catholics must believe with divine faith per the subsequent decree of Vatican I which was no less incumbent upon the believer in Bellarmine's time though then it were the universal teaching of all theologians namely that the Pope is infallible when judging matters of Faith and Morals and defining these as matters that must be believed by all the faithful This particular distinction is important for the Pope outside of this very narrow category does not enjoy infallibility thus in private letters private teaching their acts behavior etc Popes can give scandal they can give opinions that are in fact false but they cannot teach the whole Church and bind it to believe error To quote Bellarmine himself For to this point no Pope has been a heretic or certainly it cannot be proven that any of them were heretics therefore it is a sign that such a thing cannot be On the Roman Pontiff book 4 ch 6 In this treatise Bellarmine endeavors to show that this is the case

The Oecumenical Council and the Infallibility of the Roman Pontiff Henry Edward Manning,1869 **The OEcumenical Council and the Infallibility of the Roman Pontiff** Henry Edward,2018-01-24 Excerpt from The OEcumenical Council and the Infallibility of the Roman Pontiff A Pastoral Letter to the Clergy We should have thought that this solve itself The convocation of addressed only to its members and About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works **Delineation of Roman Catholicism, ... in which the peculiar doctrines ... of the Church of Rome are stated, and confuted** Charles ELLIOTT (D.D.),1844

The Primacy of the Roman Pontiff Thomas Joseph Carr,1896 **The Indefectibility of the Pope** Ronald L. Conte Jr,2019-01-21 This book proposes that each and every valid Roman Pontiff is preserved by the grace of God from certain errors and certain sins for the sake of the indefectibility of the Church and the salvation of souls The Roman Pontiff is the Rock on which the Church is founded not only by his office but also in his person Therefore both the office and the person are protected from error and sin from evil and corruption What is the extent and limit of the protection given by God to the office and person of the Roman Pontiff This book will answer the question by reference to Sacred Scripture Sacred Tradition and the past teachings of the Magisterium The book will consider examples from the history of the Popes and will propose solutions to various problems such as the claim that some Popes have taught heresy or were corrupt persons The primary answer to this question though is very simple It is a matter of faith that God has done all that He ought to do in order to secure the salvation of souls through the one holy Catholic and Apostolic Church If permitting a Pope to act in one way or another would cause the loss of the indefectibility of the Church or the loss of a vast numbers of souls we must conclude that God does not permit that act God is all powerful and His grace can prevent any sin and any error We must not assume

instead that free will or sin are themselves the prevailing forces Jesus Christ did not build a fragile Church He did not design an Ark of Salvation that is unseaworthy His Church is indestructible His Ark of salvation is unsinkable Even the gates of Hell cannot prevail over the Church Therefore Jesus prevents the Pope the body of Bishops and the Church from teaching grave error and from any type of sin that would contradict the very purpose of the Church to save souls The protections given to the Roman Pontiff are also given to the body of Bishops with the exception that they are protected from certain errors and certain sins only as a body not as individuals Jesus chose Twelve Apostles not only one Apostle Peter is the head of the Church but also the head of the body of Bishops he is not called to rule alone but to rule above and with the other Apostles The Pope is the successor of Peter and the Bishops are the successors of the other Apostles The author of this book is Ronald L Conte Jr He is the translator and editor of the Catholic Public Domain Version of the Bible He has written dozens of books and booklets on Roman Catholic theology including ethics salvation theology Mariology Biblical chronology and eschatology

The present volume being the outgrowth of lectures delivered in the classroom was originally written in Latin with the intention of supplying a textbook suited to the needs of those beginning the study of theology in our seminaries It is hoped that the detailed explanations and the simplicity of language will render the work intelligible and useful to a large portion of the laity With the exception of the Sacraments there is perhaps no subject of more practical interest to clergy and laity alike than that of the Church yet there are few works in English treating the subject in full The author trusts that he has made some contribution in this matter by giving a connected and rather detailed account of the origin constitution and powers of the Church from the dogmatic as well as from the apologetic point of view From the Introduction
