BDEDM 2023 Misra Anuranjan, Ke Yan, Wang Yan, 2023-06-13 Proceedings of the 2nd International Conference on Big Data Economy and Digital Management BDEDM 2023 supported by University Malaysia Sabah Malaysia held on 6th 8th January 2023 in Changsha China virtual conference The immediate purpose of this Conference was to bring together experienced as well as young scientists who are interested in working actively on various aspects of Big Data Economy and Digital Management The keynote speeches addressed major theoretical issues current and forthcoming observational data as well as upcoming ideas in both theoretical and observational sectors Keeping in mind the academic exchange first approach the lectures were arranged in such a way that the young researchers had ample scope to interact with the stalwarts who are internationally leading experts in their respective fields of research The major topics covered in the Conference are Big Data in Enterprise Performance Management Enterprise Management Modernization Intelligent Management System Performance Evaluation and Modeling Applications Enterprise Technology Innovation etc What determines green purchase behavior? Zhongju Liao, Shufeng Xiao, Siying Long, 2024-05-31 Green purchase behavior refers to consumers purchasing green products that are environmentally friendly using fewer resources and causing lower environmental impact and risk As a growing number of people start to recognize the importance of individual responsibility for environmental protection firms are increasingly motivated to develop green products to fit the needs of this green advocacy Despite an emerging number of consumers claiming their preference towards green brands compared to traditional alternatives researchers have found that there is a huge gap between consumers purchase intention and actual behavior which has gained much attention The psychological process of green purchase behavior may be a complicated process influenced by various factors such as consumer values and norms the pros and cons marketed for green products and various other situational factors Scholars are calling for research that explores the psychological decision making process of green purchase behavior from both theoretical and practical perspectives Due to the high pricing of green products the trade off between the price and function of green products may lower consumers satisfaction Thus there is always a gap between green purchase intention and actual purchase behavior What determines consumers actual green purchase behavior Under what conditions will the consumers pay a premium price for green products What prompts consumers to choose green brands over traditional alternatives Will green consumption be a passing trend or a long term consumption habit What influences the frequency of consumers green purchasing Scholars are welcome to share their opinions and findings about green purchase behavior to help explore this research topic We are extremely interested in the determinants of green purchase behavior and the mechanism of facilitating green consumption considering different perspectives An Integrative Proposal in Addiction and Health Behaviors Psychosocial Research: Overview of New Trends and Future Orientations Álvaro García Del Castillo-López, Paulo Dias, Anthony Copez-Lonzoy, 2025-02-24 The field of addiction and health

behaviors is a multifaceted area of psychosocial research that integrates insights from psychology public health neuroscience and social sciences This domain explores the complex interplay between individual psychological processes social environments and biological factors in developing maintaining and treating addictive behaviors and related health outcomes Recent trends in this area emphasize a holistic approach considering not only the addictive behaviors themselves but also associated health behaviors such as physical activity diet and sleep patterns which can significantly influence recovery and overall well being Integrating technology including digital health interventions and data analytics has opened new avenues for personalized and accessible treatment options Future orientations may focus on enhancing interdisciplinary collaboration developing culturally sensitive interventions and harnessing technological advances to improve prevention strategies therapeutic interventions and policy making in addiction and health behaviors research

Cognitive and Mental Health Improvement Under- and Post-COVID-19 Chong Chen, Gabriele Nibbio, Yuka Kotozaki,2025-03-19

An increasing body of research suggests that the COVID 19 pandemic has worsened global mental health and caused more cognitive impairments Whereas the COVID 19 pandemic is still ongoing in some regions it is expected to be ending for most regions in the very near future From a psychological psychiatric and public mental health perspective it is of vital importance to conduct effective and efficient interventions to promote cognitive and mental health for they not only are essential for us to cope with the ongoing pandemic but also necessary for us to rebuild a better world post the pandemic Not to say that a healthy cognitive and mental health state is at the core of human wellbeing and deserves its own place From previous studies and everyday practices we already know that regular exercise appropriate sleep nutritious diet close social ties connection with nature mindfulness among others help improve cognition and boost mental health However the optimal regimen for each specific cognitive and mental health outcome for a specific population including both those of healthy and clinical is unclear and remain to be identified Furthermore the underlying psychological physiological and neurobiological mechanisms through which each activity or intervention improves cognition and promotes

mental health are to be clarified The aim of this Research Topic is to publish a wide range of studies that help address these unsolved issues and advance our understanding of what activities and interventions help improve cognition and promote mental health Any topics relevant to cognitive functions academic or work performance affective wellbeing and mental health are welcome Both studies of acute and chronic regular effects are welcome The subjects can be healthy human volunteers clinical patients or animals of different ages and sexes Article types include but are not limited to original research brief research reports clinical trials reviews meta analyses hypothesis and theory articles For original research and brief research reports the design can be cross sectional longitudinal or interventional as long as they provide insights into cognitive and mental health promotion
