Online Go Flight Mission Control 19651992:

Go, Flight! Rick Houston, Milt Heflin, 2015-12 At first glance it looks like just another auditorium in just another government building But among the talented men and later women who worked in mission control the room located on the third floor of Building 30 at what is now Johnson Space Center would become known by many as the Cathedral These members of the space program were the brightest of their generations making split second decisions that determined the success or failure of a mission The flight controllers each supported by a staff of specialists were the most visible part of the operation running the missions talking to the heavens troubleshooting issues on board and ultimately attempting to bring everyone safely back home None of NASA's storied accomplishments would have been possible without these people Interviews with dozens of individuals who worked in the historic third floor mission control room bring the compelling stories to life *Go Flight* is a real world reminder of where we have been and where we could go again given the right political and social climate

Apollo Mission Control Manfred "Dutch" von Ehrenfried, 2018-06-21 This book describes the history of this now iconic room which represents America's space program during the Gemini Apollo Skylab Apollo Soyuz and early Space Shuttle eras It is now a National Historic Landmark and is being restored to a level which represents the day the flight control teams walked out after the last lunar landing missions The book is dedicated to the estimated 3 000 men and women who supported the flights and tells the story from their perspective It describes the rooms of people supporting this control center those rooms of engineers analysts and scientists most people never knew about Some called it a shrine and some called it a cathedral Now it will be restored to its former glory and soon thousands will be able to view the place where America flew to the moon

The Birth of NASA Manfred "Dutch" von Ehrenfried, 2016-03-23 This is the story of the work of the original NASA space pioneers men and women who were suddenly organized in 1958 from the then National Advisory Committee on Aeronautics NACA into the Space Task Group A relatively small group they developed the initial mission concept plans and procedures for the U S space program Then they boldly built hardware and facilities to accomplish those missions The group existed only three years before they were transferred to the Manned Spacecraft Center in Houston Texas in 1962 but their organization left a large mark on what would follow Von Ehrenfried's personal experience with the STG at Langley uniquely positions him to describe the way the group was structured and how it reacted to the new demands of a post Sputnik era He artfully analyzes how the growing space program was managed and what techniques enabled it to develop so quickly from an operations perspective The result is a fascinating window into history amply backed up by first person documentation and interviews

Moonbound Jonathan Fetter-Vorm, 2019-06-04 On a summer night in 1969 two men climbed down a ladder onto a sea of dust at the edge of an ancient dream When Neil Armstrong and Buzz Aldrin first set foot on lunar soil the moon ceased to be a place of mystery and myth It became a destination Now on the fiftieth anniversary of that journey *Moonbound* tells the monumental story of the moon and the men who went there first With vibrant images

and meticulous attention to detail Jonathan Fetter Vorm conjures the long history of the visionaries stargazers builders and adventurers who sent Apollo 11 on its legendary voyage From the wisdom of the Babylonians to the intrigues of the Cold War from the otherworldly discoveries of Galileo to the dark legacy of Nazi atrocities from the exhilarating trajectories of astronauts recounted in their own words to the unsung brilliance of engineers working behind the scenes Moonbound captures the grand arc of the Space Age in a graphic history of unprecedented scope and profound lyricism
