Online Importance Historical Archaeologies Nineteenth Archaeology:

Archaeology, Narrative, and the Politics of the Past Julia A. King, 2026-10-25 In this innovative work Julia King moves nimbly among a variety of sources and disciplinary approaches archaeological historical architectural literary and art historical to show how places take on convey and maintain meanings Focusing on the beautiful Chesapeake Bay region of Maryland King looks at the ways in which various groups from patriots and politicians of the antebellum era to present day archaeologists and preservationists have transformed key landscapes into historical indeed sacred spaces The sites King examines include the region s vanishing tobacco farms St Mary s City established as Maryland s first capital by English settlers in the seventeenth century and Point Lookout the location of a prison for captured Confederate soldiers during the Civil War As the author explores the historical narratives associated with such places she uncovers some surprisingly durable myths as well as competing ones St Mary s City for example early on became the center of Maryland s founding narrative of religious tolerance a view commemorated in nineteenth century celebrations and reflected even today in local museum exhibits and preserved buildings And at Point Lookout one private group has established a Confederate Memorial Park dedicated to those who died at the prison thus nurturing the Lost Cause ideology that arose in the South in the late 1800s while nearby the custodians of a 1 000 acre state park avoid controversy by largely ignoring the area s Civil War history preferring instead to concentrate on recreation and tourism an unusually popular element of which has become the recounting of ghost stories As King shows the narratives that now constitute the public memory in southern Maryland tend to overlook the region s more vexing legacies particularly those involving slavery and race Noting how even her own discipline of historical archaeology has been complicit in perpetuating old narratives King calls for research particularly archaeological research that produces new stories and counter narratives that challenge old perceptions and interpretations and thus convey a more nuanced grasp of a complicated past Newsletter - Society of Historical Archaeology Society for Historical Archaeology, 2000 *Paradigm Found* Kristian Kristiansen, Ladislav Šmejda, Jan Turek, 2015-01-21 *Paradigm Found* brings together papers by renowned researchers from across Europe Asia and America to discuss a selection of pressing issues in current archaeological theory and method The book also reviews the effects and potential of various theoretical stances in the context of prehistoric archaeology The 23 papers provide a discussion of the issues currently re appearing in the focal point of theoretical debates in archaeology such as the role of the discipline in the present day society problems of interpretation in archaeology approaches to the study of social evolution as well as current insights into issues in classification and construction of typologies Taking a fresh and often provocative look at the challenges contemporary archaeology is facing the contributors evaluate the effects of past developments and discuss the impact they are likely to have on future directions in archaeology as an internationally connected discipline In its final part the volume reflects on current thinking on prehistory using case studies from a number of European regions and the Mediterranean from the

Neolithic to the Roman Period The volume represents a tribute to the lifetime achievements of Professor Ev en Neustupn a distinguished Czech archaeologist who contributed to the advancement of prehistoric studies in Europe and to archaeological theory and method in particular

The Public Archaeology of Treasure Howard Williams,Samuel Clague,Peter Reavill,2022-09-01 Select proceedings of the 5th University of Chester Archaeology Student Conference 31 January 2020 reflect on the shifting and conflicting meanings values and significances for treasure in archaeology s public engagements interactions and manifestations

Gender Trouble and Current Archaeological Debates Uroš Matić,Bisserka Gaydarska,Laura Coltofean,Marta Díaz-Guardamino,2024-10-28 This volume challenges the status quo by addressing a selection of intensely discussed themes in contemporary archaeological practice from a gender perspective It aims to demonstrate that gender is intrinsic to archaeology and that gender archaeology can enrich our studies irrespective of the discipline s possible future directions and so called paradigm shifts The scholarly contributions commissioned for this volume critically discuss and reflect on a wide range of concepts ideas principles and theories presently applied in archaeology within the framework of gender The chapters included in the first part deal with themes in world archaeology that have little or no focus on gender such as the Third Science Revolution e g ancient DNA stable isotopes analyses big data posthumanism e g new materialism symmetrical archaeology and the ontological turn and digital archaeology and heritage The second part focuses on themes in which gender archaeology has made serious advances intersectionality social inequality violence mobility The third part deals with themes crucial for contemporary archaeology and society namely gender education gender representation in museum exhibitions and the future of gender archaeology The volume concludes with a coda chapter that critically assesses the preceding contributions and the volume as a whole The book offers a gender balanced and inclusive authorship consisting of both well established and early career researchers closely connected to the EAA whose professionally culturally and geographically diverse backgrounds and experiences enrich the viewpoints discussed in the chapters The targeted audience is archaeologists from all theoretical and scientific backgrounds at all stages of their career
