## Online Naked Lens Second Guide Photography:

*The Naked and the Lens, Second Edition* Louis Benjamin, 2015-12-22 Nude photography can be intimidating for the artist and the subject. Technique, creativity and psychology all need to be considered and executed seamlessly to achieve a photographer's desired artistic and professional result. Author Louis Benjamin has built a career by studying the intricacies of the perfect nude photography photo shoot and he has compiled what he has learned for you in this second edition of the best selling book *The Naked and the Lens*. This revised text updates and builds upon the key concepts presented in the first edition that guide photographers from finding models and planning a shoot all the way through to post production. New material includes discussions of the latest equipment, software, web publishing options as well as fresh and more diverse photographs and interviews.

*Langford's Basic Photography* Anna Fox, Richard Sawdon Smith, 2015-12-08 This seminal photography text now in its 10th edition and celebrating its 50th anniversary has been revamped, reorganized and modernized to include the most up to date need to know information for photographers. Ideal for students, beginners and advanced users wanting to brush up on the fundamentals of photography, this book is a must have for any photographer's bookcase. The heart of this text however retains the same comprehensive mix of scholarly and practical information. The new edition has been fully updated to reflect dynamic changes in the industry. These changes include an expansion and overhaul of the information on digital cameras and digital printing, an emphasis on updating photographs to include a wider range of international work, replacement of many diagrams with photos, an overhaul of the analogue sections to give a more modern tone (e.g. exposure measurement and film and filters) with some more dynamic photo illustrations.

***Photography***, 1886 *Deanna Durbin in Hollywood* Barry Lowe, 2024-02-23 Known as the first film teenager, Deanna Durbin was one of the most popular actresses of the 1930s and 1940s. From starring alongside legends like Judy Garland to playing the lead role in classic film musicals, her rise to fame seemed almost like fantasy. But her life behind the scenes was anything but glamorous. Though Durbin was a princess to the public, she was a puppet to film studios and producers and a punching bag for critics and gossip columnists. At the end of her twelve year career, her only wish was to be forgotten. Impossible. This book pays tribute to Deanna Durbin by detailing her life and career in the context of her time and appraises her film work from both a contemporaneous and a modern view. It includes a short biography, an in-depth discussion of her films and an extensive filmography and bibliography of her work. Readers will discover the true identity behind the people's Cinderella and how Durbin's career opened Hollywood's studio gates to a generation of adolescent performers.
