Ontwikkeling Der Bouwkunst In Holland:

Colonial Spectacles Marieke Bloembergen, 2006 Dutch colonial presentations at the world exhibitions in the period 1880-1931 served to legitimize the Dutch imperialist project and highlight the problem of Dutch identity and the Netherlands place in the world. At these exhibitions the Netherlands showed off its colonies by erecting models of schools, sugar factories, bridges and railways exhibits which were meant to give proof of the good works of modern colonial administration and enterprise. Not only were there displays of ethnographic objects, life size temples and villages inhabited by authentic Javanese and Sumatrans were brought to Europe specifically for these expositions. Their presence took the viewer into an Other world that provided an immediacy for visitors to the exhibition. While these colonial spectacles helped legitimize Dutch imperialism project, they also provided lenses for understanding the colonial world as it was constructed according to the prevailing evolutionist worldview at the time. bouwkunst van ons land: De ateden.-2.Het platteland.-3.Het interieur J. J. Vriend, 1949 *The Architectural Representation of Islam* Eric Roose, 2025-10-01 This book is a study of Dutch mosque designs, objects of heated public debate. Until now, studies of diaspora mosque designs have largely consisted of normative architectural critiques that reject the ubiquitous domes and minarets as hampering further Islamic architectural evolution. *The Architectural Representation of Islam* Muslim Commissioned Mosque Design in The Netherlands represents a clear break with the architectural critical narrative and meticulously analyzes twelve design processes for Dutch mosques. It shows that patrons, by consciously selecting, steering and replacing their architects, have much more influence on their mosques than has been generally assumed. Through the careful transformation of specific building elements from Islamic architectural history to a new context, they literally aim to construct the ultimate Islam. Their designs thus evolve not in opposition to Dutch society but to those versions of Islam that they hold to be false.
