Medieval Religious Rationalities A Weberian Analysis:

Medieval Religious Rationalities D. L. D'Avray, 2014-05-14 A groundbreaking study applying Weberian theories of rationality to medieval social cultural and religious values and structures **Rationalities in History** D. L. d'Avray, 2010-09-23 In *Rationalities in History* the distinguished historian David d'Avray writes a new comparative history in the spirit of Max Weber In a strikingly original reassessment of seminal Weberian ideas d'Avray applies value rationality to the comparative history of religion and the philosophy of law Integrating theories of rational choice anthropological reflections on relativism and the recent philosophy of rationality with Weber's conceptual framework d'Avray seeks to disengage rationalisation from its enduring association with Western modernity This mode of analysis is contextualised through the examples of Buddhism Imperial China and sixteenth century Catholicism in the latter case building upon unpublished archival research This ambitious synthesis of social theory and comparative history will engage social scientists and historians from advanced undergraduate level upwards stimulating interdisciplinary discourse and making a significant contribution to the methodology of history D'Avray explores the potential of this new Weberian analysis further in his companion volume *Medieval Religious Rationalities* *Medieval Religious Rationalities* D. L. d'Avray, 2010-09-23 Inspired by the social theories of Max Weber David d'Avray asks in what senses medieval religion was rational and in doing so proposes a new approach to the study of the medieval past Applying ideas developed in his companion volume on *Rationalities in History* he explores how values instrumental calculation legal formality and substantive rationality interact and the ways in which medieval beliefs were strengthened by their mutual connections by experience and by mental images He sheds new light on key themes and figures in medieval religion ranging from conversion miracles and the ideas of Bernard of Clairvaux to Trinitarianism papal government and Francis of Assisi's charismatic authority This book shows how values and instrumental calculation affect each other in practice and demonstrates the ways in which the application of social theory can be used to generate fresh empirical research as well as new interpretative insights *Spiritual Rationality* Stefan K. Stantchev, 2014 Offers the first book length study of the Roman Catholic church's practice of embargoing trade outside of Christendom in the period c 1150 to c 1550 particularly examining the influence of the papacy on the state *Blurred Boundaries and Deceptive Dichotomies in Pre-Modern Texts and Images* Dafna Nissim, Vered Tohar, 2023-12-18 This collection of essays focuses on the way blurred boundaries are represented in pre modern texts and visual art and how they were received and perceived by their audiences readers listeners and viewers According to the current understanding that opposing cognitive categories that are so common in modern thinking do not apply to pre modern mentalities we argue that individuals in medieval and pre modern societies did not necessarily consider sacred and secular male and female real and fictional and opposing emotions as absolute dichotomies The contributors to the present collection examine a wide range of cultural artifacts literary texts wall paintings sculptures jewelry manuscript illustrations and various objects as to what they reflect

regarding the dominant perceptual system the network of beliefs worldviews presumptions values and norms of viewing reading hearing different from modern epistemology strongly predicated on the binary nature of things and people The essays suggest that analyzing pre modern cultural works of art or literature in light of reception theory can lead to a better understanding of how those cultural products influenced individuals and impacted their thoughts and actions *The Routledge International Handbook on Max Weber* Alan Sica, 2022-09-20 This book explores the latest thinking about Max Weber and his continuing influence on theoretical and empirical interests today Bringing together the work of leading scholars from a variety of disciplines it illuminates Weber's thought in a number of key areas including the methodology and philosophy of social science comparative religion the rationalization process political sociology the sociology of law and the Protestant ethic and the development of capitalism An international collection that demonstrates the enduring importance of Weber's thought to contemporary sociology and the discipline's major concerns The Routledge International Handbook on Max Weber will appeal to scholars in a range of disciplines including sociology social theory politics philosophy law and international relations **A Lifetime of English Studies** Fiona Dalziel, Sara Gesuato, Maria Teresa Musacchio, 2012

Handbook of Historical Sociology Gerard Delanty, Engin F Isin, 2003-06-23 This Handbook consists of 26 chapters on historical sociology Part One is devoted to Foundations Part Two moves on to consider major approaches and Part Three is devoted to the major themes in historical sociology Systematic and informative it offers readers the most complete and authoritative guide to historical sociology **Experts et expertise au Moyen Âge** Société des historiens médiévistes de l'enseignement supérieur public, 2012 La 4e de couv indique Le XIIe Congrès de la Société des historiens médiévistes de l'Enseignement supérieur public qui s'est tenu Oxford en mars-avril 2011 a consacré ses travaux une figure longtemps mal connue et mal identifiée une figure dont la désignation semble ce point sortie de la technocratie moderne qu'on peine à imaginer pour les époques plus anciennes et pour le Moyen Âge en particulier l'expert la charnière de la pratique et de la doctrine l'expert sert de raccord entre des expériences sociales aussi complexes que diversifiées Seul ou en petit comité il est requis pour donner son avis valider une hypothèse dire sa vérité nourrie du moins le suppose-t-on d'objectivité et de connaissances savantes dans les lieux les plus divers le tribunal évidemment mais aussi le chantier de construction le lit du malade devant des reliques ou lors d'une discussion savante Ce qui qualifie l'expert agir c'est la fois un savoir reconnu et une position sociale la compétence technique ne suffit pas toujours il y faut en plus une reconnaissance qui n'est pas souvent explicite mais qui est pourtant indispensable pour que les parties requérantes s'en remettent l'avis d'une tierce personne C'est cet entre-deux social et fonctionnel entre savoir et faire savoir que se situe la fonction de l'expert En faisant le sujet de son congrès la Société des médiévistes a voulu attirer l'attention sur cette fonction qui n'est ni un métier ni un statut permanent mais qui présume la fois la maîtrise savante et la capacité de la faire reconnaître dans des situations nécessairement délicates ou incertaines La multiplicité des cas ici examinés qui balayaient tout le millénaire médiéval de l'Orient à l'Occident témoigne

de la place qu'a su conquérir ce technicien le mettrait tantôt très majoritairement masculin comme tous les espaces de domination qui viennent aider la prise de décision sans trouble lui-même décisionnaire. C'est qu'en effet l'expertise n'est pas une fin en soi. Elle vise à clarifier pour permettre au jeu des institutions de fonctionner dans un consensus garanti par la compétence superpartes d'une personnalité extérieure. En s'intéressant aux critères de sélection des experts autant qu'à leur modalité d'intervention ou aux effets de celle-ci, les contributions ici réunies brassent une large matière qui illustre comment les sociétés modernes ont su mobiliser ces médiateurs de la décision bien plus nombreux et actifs qu'on ne le supposait.

Religious and Theological Abstracts, 2003 The Community of Freedom Rolf Ahlers, 1989 The book is based on Barth's assumption of 1933 that the true Hegeltime is still to begin. That assumption implies Barth was essentially correct in his critique of natural theology. That critique implies that the only presupposition theology can accept is God's self-revelation. Presuppositionless theology is in structure identical to presuppositionless philosophy such as that of Hegel. Triplicism is the community of freedom reflecting from within self-disclosing truth. Such self-reflection implies a natural theology for it is inherently reasonable. It is of necessity critical of positions that operate with presuppositions such as any transcendentalism but also hermeneutics. The book follows in structure the six theses of the Barmen Declaration of 1934 and touches most major theological positions of the present time.

L'exercice de la pauvreté Clément Lenoble, 2013 **Eastern Christians in Anthropological Perspective** C. M. Hann, Hermann Goltz, 2010 This collection of essays is a welcome and refreshing gift in a virtual desert. There has been very little comparative anthropological research on the Eastern churches and this volume will fill that gap. Michael Herzfeld, author of *Evicted from Eternity: The Restructuring of Modern Rome*. At long last there is a book on the anthropology of Christianity that devotes direct and sustained attention to the diverse Eastern Christian Churches, both Orthodox and Catholic. This book should be read by anyone who thinks anthropologically about Christianity. Scales will fall from their eyes and they will behold an entire wing of Christianity that has until now gone mostly unnoticed and practically untheorized. Douglas Rogers, author of *The Old Faith and the Russian Land: A Historical Ethnography of Ethics in the Urals*.

Religion and Life Conduct Lutz F. Kaelber, 1996 *Three Studies in Medieval Religious and Social Thought* Giles Constable, 1998
Religion and rationality P. J. Watson, 1994 **Three Studies in Medieval Religious and Social Thought** Giles Constable, 1998-03-28 This volume of three Studies concentrates on the changes in religious thought and institutions in the eleventh and twelfth centuries and includes not only monks and nuns but also less organised types of life such as hermits, recluses, crusaders and penitents. It is complementary to Professor Constable's forthcoming book *The Reformation of the Twelfth Century* but is dissimilar from it in examining three themes over a long period from late antiquity to the seventeenth century in order to show how they changed over time. The interpretation of Mary and Martha deals primarily but not exclusively with the balance of action and contemplation in Christian life; the ideal of the imitation of Christ studies the growing emphasis on the human Christ, especially His body and wounds; and the orders of society look at the conceptual

divisions of society and the emergence of the modern idea of a middle class **Medieval Philosophy of Religion** Graham Oppy, N. N. Trakakis, 2014-10-20 The Medieval period was one of the richest eras for the philosophical study of religion Covering the period from the 6th to the 16th century reaching into the Renaissance The History of Western Philosophy of Religion 2 shows how Christian Islamic and Jewish thinkers explicated and defended their religious faith in light of the philosophical traditions they inherited from the ancient Greeks and Romans The enterprise of faith seeking understanding as it was dubbed by the medievals themselves emerges as a vibrant encounter between and a complex synthesis of the Platonic Aristotelian and Hellenistic traditions of antiquity on the one hand and the scholastic and monastic religious schools of the medieval West on the other Medieval Philosophy of Religion will be of interest to scholars and students of Philosophy Medieval Studies the History of Ideas and Religion while remaining accessible to any interested in the rich cultural heritage of medieval religious thought The Boundaries of Faith: The Development and Transmission of Medieval Spirituality John C. Hirsh, 2021-11-01 This volume deals with the ways in which religious Faith was communicated and adapted during the late medieval period and after and with the ways in which spirituality culture written texts and gender interacted during the same period Drawing on texts like the Book of Margery Kempe popular prayers romances and devotions well known devout practices mystical and visionary writing and devout representations like the Arma Christi the book addresses the ways in which these both informed and were informed by attitudes towards Faith and Belief which continue today Subjects include the development of religious attitudes devotion to Christ's blood the influence of mysticism on literary texts Chaucer's feminism Eastern sources and the transmission of medieval spirituality into the New World **Rationality and Religious Belief** Cornelius F. Dalaney, 1979-01-01
