## New World Order Humanity Knowledge:

**Wiki vs NWO (New World Order)** Grant Elder,2014-11-07 Most people shun the word conspiracy The media has made it seem like all conspiracies are theories and that anyone who discusses them is a tinfoil hat Yet anyone who has studied history or business knows that conspiracies are a part of the human experience Once we realize this the question arises what conspiracies are occurring in our time that are significant What perceptions of the world do we hold that are incorrect Western civilization although technologically advanced beyond the days of a Flat Earth or geocentric universe is blind to its own corruptions Our governing practices were established over a century ago and have evolved very little If we could apply the success we've had in science technology and understanding the human condition to the way we govern our society what would our world look like Be forewarned The journey starts off frightfully dark and many people do not have the emotional fortitude to face the real demons But if you make the journey it is very rewarding to realize that we have at our disposal the means to create a remarkable world for the next generation if we so choose This book blends business management strategies leveraged by technology to address the inherent problems in governments Presented in a clear step by step manner that provides readers with a unique and fresh look at alternatives to our present system

We begin with a look into the first levels of our existence the structures dynamics and connection to the Source Cycles the oversoul cycles and the soul group cycles It is important to understand what a soul is and how the evolutions unfold in the first cosmos Then we investigate what led to the division of the soul races and the two universes that arose after this i.e. the first disputes between the anti elevation groups and the pro elevation groups as well as the technologies and the result in the Internal Strife which led to the division of the holographic metaverse the HM giving grounds for the less progressive universe the LPU We look into the soul races that departed and what they faced as settlers in a new type of universe We will look into the technologies they took with them and their later inventions leading to more problems for the departed soul races We look at the participation and evolutions of the LPU and the divisions among the departed soul races Which role does the technologically enhanced genetics the TEGs play and how

do they affect the LPU evolutions What obstacles do the races of the LPU face as a part of this system cut off from holographic universe How have they solved this From here we move on into the historical details of the LPU the collaborations the timeline event and the rise of the ancient stellar races Then the regression fields and their races are addressed It is from these areas the Reptilian Riots arose and we need to look into the background of the regressive races and what led to the takeover of our planet What were the reasons for the Reptilian Riots How did it affect the lower levels of the less progressive universe And when did the dark ones get into power of our reality field the technologies in humans etc This and much more are part of this book The Rotarian,1924-09 Established in 1911 The Rotarian is the official magazine of Rotary International and is circulated worldwide Each issue contains feature articles columns and departments about or of interest to Rotarians Seventeen Nobel Prize winners and 19 Pulitzer Prize winners from Mahatma Ghandi to Kurt Vonnegut Jr have written for the magazine Learning Intelligence: Innovative and Digital Transformative Learning Strategies Kumaran Rajaram,2023-02-09 This book provides holistic guidance and proposes practical frameworks to navigate complex learning environments in the rapidly evolving climate and an environment to facilitate effective learning and knowledge transfer while advocating a shift in the learning culture and culture of learning in varying contexts It serves well for varying and cross disciplinary clusters of individuals particularly for academics senior management of higher education institutions and senior leaders of corporate organizations This book equips readers with a deeper understanding of the evolving and dynamic issues that need to be addressed in the higher education context to handle multifaceted situations in the process of engaging University students to be nurtured as future global leaders and knowledge workers World War and Its Only Cure--world Order and World Religion Bhagavan Das,1941 The Human Reality Valentin Matcas,2016-04-20 There is a difference between the material objective world and the actual human reality since the human reality is very vast formed of this physical objective world and much more Since there is a difference between the actual human reality and the current knowledge about the human reality while by altering the knowledge itself about the human reality it remains separated into the consensual human reality and the actual normal objective human reality While if you lack awareness of all these you end up exploited as a human being in a human world Because you cannot study the human reality without comprehending those controlling the knowledge about the human reality and how they do so forcefully consensually or through stereotypes set in place since Aristotle and long before since this is how they end up controlling you and the entire world Furthermore you cannot form an accurate model of the universe if you do not understand yourself if you do not understand exactly your needs driving you to perform this study if you do not understand your mind constituting your means of understanding the universe and if you do not understand Life altogether spanning the universe actively involved in its structure shape behavior and development At the same time understanding the world around is the key to understanding yourself your life and your meaning in life and in the world closing this circle of knowledge Since this is why we consider the most relevant
