

# RULES OF 8-BALL

- 
- 1 Rack the balls tightly with the top ball of the rack on the foot spot (white dot).
  - 2 Ball order should be random except the 8-ball should be in the middle of the third row. Place the cue ball anywhere behind the service line.
  - 3 Coin toss to decide who gets to break first then take turns.
  - 4 A legal break must: hit the balls. Four balls must hit cushions. The cue ball must not get pocketed. Re-rack if the 8-ball is potted on the break.
  - 5 The first player to pot an object ball will continue to pot the balls from that category (stripes or solids).
  - 6 A player will continue to make shots until they foul or fail to pot an object ball. Then it is the next player's turn.
  - 7 If a player commits a foul, it is the next player's turn and they may place the cue ball anywhere on the table.
  - 8 Failing to hit your own object balls is a foul.
  - 9 Hitting the cue ball off the table is a foul.
  - 10 Potting one of the opposition's object balls is a foul.
  - 11 Hitting the cue ball twice is a foul.
  - 12 Pushing the cue ball rather than striking it is a foul.
  - 13 A player taking a shot when it is not their turn is a foul.
  - 14 Once all of a player's balls are potted, they must sink the 8-ball. You must call your pocket. Play continues if the 8-ball is not potted.
  - 15 If the player pots the 8 ball in any pocket other than the nominated one, they forfeit the game.

**The Rules of the Game in the Global Economy** Lee E. Preston, Duane Windsor, 1997-03-31 The subject of this study is the way that firms industries and nations organize their relationships with one another in order to engage in international business To the casual observer the processes of buying and selling borrowing and lending investing and receiving investment returns may seem much the same whether they occur within a single country or between and among businesses in different political jurisdictions In fact however business contacts between firms or individuals in different countries are significantly different from their domestic counterparts Not only do international buyers and sellers borrowers and lenders investors and earnings recipients often use different languages and currencies they also frequently operate under different basic rules governing contracts accounting practices and dispute settlement arrangements and they are subject to different tax systems Most important they may require explicit permission or at least facilitating arrangements from their respective governments in order to engage in any economic contact whatsoever It may well be that as Adam Smith believed there is a certain propensity in human nature to truck barter and exchange one 1 p 17 but the fact is that most important for another 1776 vol important markets and business relationships do not simply appear and evolve as natural phenomena In fact they are created by human effort and are highly organized and international business relationships are the most highly organized of all
