The Oxford Handbook of the Bible and Ecology Hilary Marlow, Mark Harris, 2022 Does the Bible have anything to contribute to contemporary concerns about the environment This collection of essays on the Bible and ecology explores biblical texts and their interpretation in the light of ecological issues The handbook covers a number of political and ethical issues as well as offering detailed exploration of individual Bible books It discusses a number of controversial views including whether the Judeo Christian tradition has contributed to the environmental crisis and how the

Bible is used by climate change deniers *Gaia's Web* Karen Bakker,2024-04-16 A riveting exploration of one of the most important dilemmas of our time will digital technology accelerate environmental degradation or could it play a role in ecological regeneration At the uncanny edge of the scientific frontier Gaia s Web explores the promise and pitfalls the Digital Age holds for the future of our planet Instead of the Internet of Things environmental scientist and tech entrepreneur Karen Bakker asks why not consider the Internet of Living Things At the surprising and inspiring confluence of our digital and ecological futures Bakker explores how the tools of the Digital Age could be mobilized to address our most pressing environmental challenges from climate change to biodiversity loss Interspersed with ten elegiac enigmatic parables each of which is based on an existing technology Gaia s Web evokes the conundrums we face as the World Wide Web intertwines with the Web of Life A new generation of innovators is deploying digital technology to come to the aid of the planet using spy satellites to track down environmental criminals inviting animals to the Metaverse and biohacking Frankenstein like biobots as environmental sentinels But will they end up doing more harm than good In an engaging take on conservation technology Bakker looks at the digital tech applications to environmental issues from predatory harvesting of environmental data to human bycatch and eco surveillance capitalism If we address these issues and mobilize digitally mediated forms of citizen science she argues digital tech could help reverse environmental harms and advance environmental sustainability And in the process Big Tech might be transformed for the better With its uniquely broad scope combining insights from computer science ecology engineering environmental science and environmental law Gaia s Web introduces profoundly novel ways of addressing our most pressing environmental challenges mitigating climate change protecting endangered species and creating new possibilities for ecological justice by empowering nonhumans to participate in environmental regulation

Mendel's Ark Amy Lynn Fletcher,2014-09-19 Does extinction have to be forever As the global extinction crisis accelerates conservationists and policy makers increasingly use advanced biotechnologies such as reproductive cloning polymerase chain reaction PCR and bioinformatics in the urgent effort to save species Mendel s Ark considers the ethical cultural and social implications of using these tools for wildlife conservation Drawing upon sources ranging from science to science fiction it focuses on the stories we tell about extinction and the meanings we ascribe to nature and technology The use of biotechnology in conservation is redrawing the boundaries between animals and machines nature and artifacts and life and death The new rhetoric and practice of de extinction will thus have significant repercussions for wilderness and for society The degree to which we engage collectively with both the prosaic and the fantastic aspects of biotechnological conservation will shape the boundaries and ethics of our desire to restore lost worlds *Leaving Your Mark* Simon Verduijn,2014-10-22 This book reports on Simon Verduijn s 1985 PhD research on a variety of individuals who try to leave their mark on the IJsselmeer area the Netherlands These individuals are regarded as policy entrepreneurs people that strategically employ framing and networking strategies to advocate or oppose policy change by setting the public policy and

political agendas The book discusses relevant literature on policy entrepreneurship framing and networking strategies and agenda setting The empirical research comprises an in depth study of four cases involving semi structured interviews document study and newspaper article analysis The first case selected concerns the Second Delta Committee which set the agenda for water safety and climate adaptation in the Dutch Delta and recommended a substantial increase in the water level of the IJsselmeer The second case concentrates on policy entrepreneurs who pushed for a change in Dutch nature policy advocating a focus on nature development over nature preservation The third case considers policy entrepreneurs support or opposition to plans to realise outer dike urbanisation and build an infrastructural connection either a bridge or tunnel through the Markermeer IJmeer The final case looks at policy entrepreneurs who advocated or opposed plans to create large clusters of wind turbines close to the historical village of Urk The study reveals how policy entrepreneurs employ various framing and networking strategies exploit the use of visualisations frame issues at stake differently and frame themselves and others Insights are also offered into how policy entrepreneurs cope with the enabling and constraining factors of context with their various strategies resulting in successes as well as failures
