### **Commercial Litigation in New York State Courts**, 2005      Business Law and Economics for Civil Law Systems

Rousseau, Stéphane, Mackaay, Ejan, Larouche, Pierre, Parent, Alain, 2021-11-19 Business Law and Economics for Civil Law Systems highlights the relevance of economic analysis of business law from a civilian perspective. It integrates a comparative approach common law and civil law to economic analysis using tools and illustrations to assist in conducting critical economic analysis of rules in the field of business law. This book is a valuable contribution to the reflection on the place and meaning of value creation and accountability as goals for business law. It will be of great value to academics interested in business law, competition law, comparative law and legal theory, students studying law, business and economics, and to policy makers and regulators.

The Law of Cross-Border Business Transactions Lutz-Christian Wolff, 2017-12-15 Law of Cross Border Business Transactions aims at giving a structured introduction to the law and practice of investment deals e.g. greenfield projects, M & A, lex mercatoria, conflict of laws, letters of intent, position papers, heads of agreement, confidentiality and exclusivity agreements, structure and contents of international contracts, e-contracts and smart contracts, protection of intellectual property rights and technology transfer, trade countertrade and trade financing, insurance agency and distributorship, greenfield investments and M & A, competition law and merger control, employment law, corporate governance and corporate social responsibility, international taxation and dispute settlement and cross border enforcement of awards. This second edition updates the discussion of the different topics comprehensively. It also expands many parts and adds sections in relation to new themes that have gained importance since the publication of the first edition. In particular, it addresses legal issues arising out of the digitalization of the global economy with a special focus on choice of law questions, smart contracts, e-bills of lading and online dispute settlement. It also draws attention to the impact of China's Belt and Road initiative, Brexit and the America First foreign policy. How this will help you. Of special value is the author's precise guidance on drafting techniques and contract practice. The clarity of the presentation, the uncompromising consistency in terms of structure and a large body of references to primary and secondary sources presented in this edition ensure that legal professionals, business managers and academics as well as other interested parties can gain easy access to comprehensive and detailed information across jurisdictions.
