After the first few days, the plants will begin to grow and produce flowers. This is a great time to start harvesting. You can either pick the flowers as they appear or wait until they are fully developed. The flowers will be at their peak when they are fully open and have a strong fragrance. You can also use the leaves and stems for cooking or brewing tea. The leaves have a slightly bitter taste, while the stems are more tender and can be used in salads or soups. The flowers are the most flavorful part of the plant and can be used in a variety of dishes, from stir-fries to desserts. Overall, the plant is a great addition to any garden and provides a delicious and healthy source of nutrition.
