Online Singapore's Economic Development Retrospection Reflections:

Singapore's Economic Development: Retrospection And Reflections Linda Y C Lim, 2015-12-30 Singapore is known internationally for its successful economic development. Key to its economic successes is a variety of policies put into place over the past 50 years since its independence. Singapore's Economic Development Retrospection and Reflections provides a retrospective analysis of independent Singapore's economic development from the perspective of different policy domains, each considered by different expert scholars in that particular field. The book is written by academic economists in a style that is accessible to non-experts. Each chapter includes reviews of past scholarship, current data on each policy area, and reflections on required or desirable future policy changes and outcomes. By examining the evolution of past and current policies which combined to make Singapore's development a success and exploring emerging developmental challenges, Singapore's Economic Development Retrospection and Reflections gives readers a better understanding of Singapore's economic trajectory and future.

Economic Liberalism and the Developmental State Bryan Cheang, 2022-11-10 This book provides a fresh perspective on the debate over the role of the state in East Asia's development history. Comparing the post-war development policies of Singapore and Hong Kong, it argues that their strong economic performances preceded and persisted despite not because of developmental state policies. While both nations are not pure free markets, the Hong Kong economy comes closer to that ideal and exhibited clear advantages over state-driven Singapore in terms of greater levels of indigenous entrepreneurship, productivity, and innovation. The book highlights the complex ways in which states penetrate markets, which are often neglected in liberal accounts of Hong Kong and Singapore as free market success stories. At the same time, it also stands as a cautionary tale on the use of non-comprehensive development planning in the twenty-first century, where an unprecedented degree of complexity complicates economic policy and industrial upgrading. The book renews the case for economic liberalism in development policy through a unique Asian cultural lens.

Global City Dilemmas and Anglophone Singapore Literature Angelia Poon, 2024-09-11 This book looks at culturally significant English language texts produced in Singapore in the last 20 years by writers such as Balli Kaur Jaswal, Alfian Sa'at, Claire Tham, Amanda Lee Koe, Ng Yi Sheng, and Kevin Kwan. It provides an analysis sensitive to the writers' socio-political and cultural contexts and shows how Singapore's Anglophone literature successfully disrupts the government's narrative on transforming the island into a global city. By asking difficult questions, challenging hegemonic perspectives, and exploring alternatives, the writers interrogate the country's colonial history, its post-colonial Cold War development, and the normalization of totalizing narratives. Their texts also grapple with key aspects of contemporary Singapore society: its official multiracialism, forms of inequality, distribution of privilege, and gender and sexual politics. By connecting these texts to developments in postcolonial literary criticism, cosmopolitanism, and globalization studies, this book sheds light on the ideological and cultural forces at work in Singapore society today.
